

# 2018 STOCKHOLDER LETTER AND ANNUAL REPORT

NYSE SYMBOLS: ECC / ECCA / ECCB / ECCY / ECCX

### **IMPORTANT NOTICE REGARDING ELECTRONIC DELIVERY**

*Beginning in February 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of shareholder reports for Eagle Point Credit Company Inc. (the “Company”) such as this report will no longer be sent by mail, unless you specifically request paper copies of the reports from the Company or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on the Company’s website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.*

*If you already elected to receive shareholder reports electronically, you will not be affected by this change and you do not need to take any action. For shareholder reports and other communications from the Company issued prior to February 2021, you may elect to receive such reports and other communications electronically. If you own shares of the Company through a financial intermediary, you may contact your financial intermediary to elect to receive materials electronically. You may also visit [www.fundreports.com](http://www.fundreports.com) or call 1-866-345-5954. If you own shares of the Company directly, you may contact us at 1-844-810-6501.*

*You may elect to receive all future reports in paper, free of charge. If you own shares of the Company through a financial intermediary, you may contact your financial intermediary to elect to continue to receive paper copies of your shareholder reports after February 2021. You may also visit [www.fundreports.com](http://www.fundreports.com) or call 1-866-345-5954. If you make such an election through your financial intermediary, your election to receive reports in paper may apply to all funds held through your financial intermediary. If you own shares of the Company directly, you may contact us at 1-844-810-6501.*

February 21, 2019

Dear Fellow Stockholders:

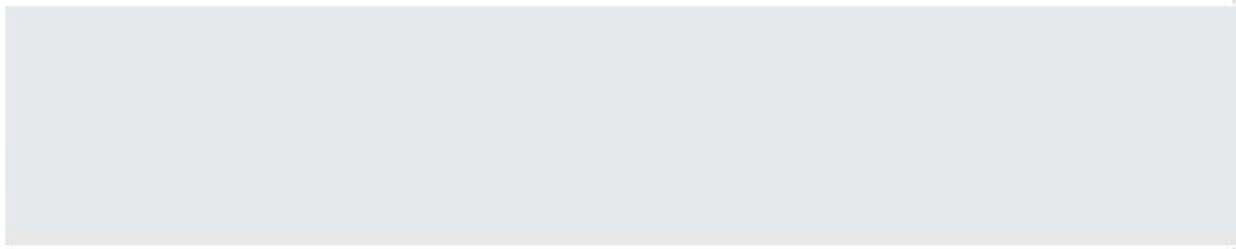

We are pleased to provide you with the enclosed report of Eagle Point Credit Company Inc. (“we,” “us,” “our” or the “Company”) for the fiscal year ended December 31, 2018.

The Company’s primary investment objective is to generate high current income, with a secondary objective to generate capital appreciation. We seek to achieve these objectives by investing primarily in equity and junior debt tranches of collateralized loan obligations (“CLOs”) and may also invest in other securities or instruments that are related investments or that are consistent with our investment objectives. The Company has a long-term oriented investment philosophy and invests primarily with a buy-and-hold mentality, though from time to time we will sell investments in the secondary market.

While the CLO market continues to command increasing attention from investors, we believe the CLO market, and CLO equity in particular, remains inefficient and attractive. We firmly believe that in less efficient markets, specialization matters and the Company benefits from the investment experience of Eagle Point Credit Management LLC (our “Adviser”), which continues to apply its proprietary, private equity style investment process in a fixed income market. This process is focused on seeking to garner advantageous pricing and terms, and, importantly, to mitigate potential risks for the benefit of our stockholders.

2018 was very much a tale of two vastly different markets. During the year, we saw one of the tightest post-crisis new issue AAA spreads followed by supply-driven CLO spread widening over the course of the year, an annual record for CLO primary issuance volume and the repeal of risk retention. We also saw three consecutive record weekly outflows from retail funds in December, leading to a steep technically-driven decrease in loan prices and reminding us that mark-to-market volatility continues to be one of the most significant risks for CLO equity. In our view, while the year ended on a low note, periods of market price volatility typically present a near and medium term opportunity for CLO equity.

As we experienced a period of loan price volatility in the final two months of the year, it is important to highlight that this volatile environment underscores what we believe is a key advantage of CLOs: the ability for investors to benefit from long-term, locked-in non-mark-to-market financing. This stable financing of CLOs provides the vehicles with a steady hand, allowing many CLOs to profit by buying loans at lower prices and/or with wider spreads. In other words, we view the long-term debt issued by the CLOs in which we invest to be more “in the money” in volatile markets, like those at the end of 2018, than in calmer markets like we saw several months ago. Indeed, it appears that the market began to show a greater appreciation of this feature in January 2019 as evidenced by the rally of CLO equity beginning after the turn of the year.

Overall, 2018 was a challenging year for nearly every asset class, but we highlight that for the year ended December 31, 2018, the Credit Suisse Leverage Loan Index<sup>1</sup> (“CSLLI”) generated a return of 1.14% as loans were one of the only asset classes that generated a positive return. In comparison, the S&P 500 Index and Merrill Lynch High Yield Master II Index<sup>2</sup> generated returns of -4.38% and -2.25%, respectively.

For the year ended December 31, 2018, the Company incurred a net decrease in net assets resulting from operations of \$54.8 million, or \$2.51 per weighted average common share<sup>3</sup> (inclusive of unrealized gains and losses). This represents a loss on our common equity of approximately 15.61% during 2018.<sup>4</sup> The negative performance was primarily related to the loan price volatility in November and December and the resulting markdown on our portfolio valuations in the fourth quarter. The markdown on our portfolio does not reflect, in our view, diminished future cash flow potential from our portfolio.

The weighted average effective yield (“WAEY”) of our CLO equity portfolio fell from 14.42% to 13.30% during the year, largely from continued marketwide loan spread compression during the first nine months of 2018. This was mitigated by low default rates and the longer-term benefits of reset and refinancing activity in our CLO equity portfolio. We believe the medium-term fundamentals of the loan market remain reasonably healthy.

Despite headwinds from marketwide loan spread compression and one-time transaction costs associated with the resets and refinancings of many of our CLO equity investments, cash flow from our investment portfolio was consistent, totaling \$91.8 million during 2018, or \$4.19 per weighted average common share (exclusive of cash flow from called investments), which compares to cash flow of \$95.5 million or \$5.39 per weighted average common share for 2017.

For much of the year, demand and issuance for CLOs remained strong. While marketwide loan spread compression impacted yields on many investments in our portfolio, the compression slowed significantly in the fourth quarter. As a result, we opportunistically deployed capital throughout 2018 into new investments with higher weighted average effective yields than the weighted average of our CLO equity portfolio at the time of investment. We continue to believe those investments should generate additional value for our portfolio over the longer term.

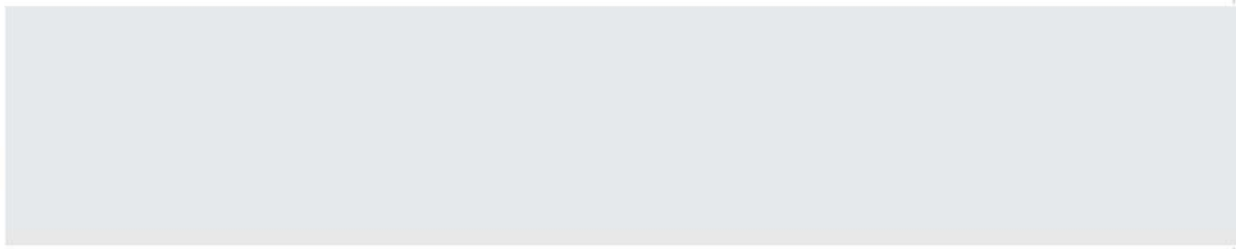

**Past performance is not indicative of, or a guarantee of, future performance.**

<sup>1</sup> The CSLLI tracks the investable universe of the US dollar-denominated leveraged loan market. The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index.

<sup>2</sup> The Merrill Lynch US High Yield Master II Index tracks the performance of US dollar-denominated below investment grade corporate debt publicly issued in the US domestic market.

<sup>3</sup> “Weighted average common share” is calculated based on the average daily number of shares of common stock outstanding during the period and “per common share” refers to per share of the Company’s common stock.

<sup>4</sup> Return on our common equity reflects the Company’s monthly cumulative performance net of applicable expenses and fees measured against beginning capital.

When pursuing the Company's investment objective, our Adviser considers the remaining weighted average reinvestment period of our CLO equity holdings with a view to maximize such period. As of December 31, 2018, almost all of the CLO equity positions held by the Company were in their reinvestment periods. In addition to making investments in newly issued CLOs (which often have five-year reinvestment periods), our Adviser also focused considerable attention in 2018 seeking to maximize value through resetting CLOs in our portfolio.

During 2018, the Company directed or otherwise participated in 21 CLO resets and 2 CLO refinancings. In a CLO reset, the CLO's indenture, which sets forth the terms governing the CLO, is re-opened and such terms can be re-negotiated. Among other potential benefits, resetting a CLO renews and extends the reinvestment period of the CLO, often creating a new five year reinvestment period. We believe the ability to lengthen the term of a CLO equity investment is a key benefit of the Company's permanent structure and many limited life investment vehicles are not fully able to capture the value of this benefit. As a result of resetting a CLO, there are one-time transaction costs (e.g., dealer fees, attorney fees, and other related costs) which typically reduce the next equity distribution on a CLO. Wherever possible, our Adviser seeks to keep these costs to a minimum.

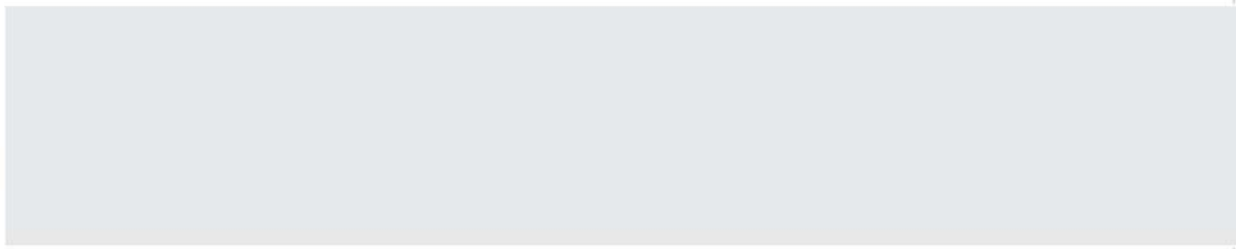

As a result of the significant reset and other portfolio activity during 2018, we extended the weighted average remaining reinvestment period of our CLO equity portfolio from 2.81 years at the beginning of 2018 to 3.41 years at the end of the year, despite one year of time decay.

By taking a proactive approach to managing our investments, we have leveraged the deep investing experience of our Adviser to achieve attractive pricing and terms on these actions, providing us greater flexibility to capitalize on the current loan market volatility. In our view, the activities undertaken in this regard should ultimately produce greater cash flows from our CLO equity investments than had we not taken any action, thus generating additional value for our portfolio to the benefit of our stockholders.

We also continue to prudently manage the Company's capital structure. During 2018, the Company completed an underwritten public offering of shares of our common stock and raised additional capital through our at-the-market program. We believe these issuances were beneficial to the Company as shares were issued at a premium to NAV (accretive to earnings by \$0.17 per share) with net proceeds utilized to, among other things, seek vintage period diversification within our investment portfolio.

Additionally, we effectively refinanced our 7.00% notes due 2020 (ECCZ) through the issuance of our 6.6875% notes due 2028 (ECCX) at our lowest cost of debt to date. Another benefit of the ECCX issuance was a significant increase to the weighted average maturity on our outstanding notes and preferred stock from six to eight years.

From December 31, 2017 through December 31, 2018, the Company's net asset value ("NAV") declined by 26.1%, from \$16.77 per common share to \$12.40 per common share. During the year, the Company declared and paid to common stockholders aggregate distributions totaling \$2.40 per share of common stock.

As of January 31, 2019, management's unaudited estimate of the range of the Company's NAV per common share was between \$13.66 and \$13.76. The midpoint of this range represents an increase of 10.6% compared to the NAV per common share as of December 31, 2018.

As we look into 2019, our Adviser continues to evaluate and pursue investment opportunities that it believes are attractive, while opportunistically selling securities when it believes there is particularly strong demand and pricing.

We were excited, as long-term investors in CLO equity, to see the loan price dislocation at the end of 2018 without any meaningful increase in corporate credit defaults, providing CLO investments in our portfolio the ability to deploy available capital and increase aggregate CLO par value, which is ultimately accretive to CLO equity investors such as ourselves. Although we expect reset activity in 2019 to be lighter than in 2018 as the majority of our investment portfolio has already been reset or refinanced, we will continue to opportunistically reset and refinance CLOs in our portfolio.

## COMPANY OVERVIEW

### Common Stock

The Company's common stock trades on the New York Stock Exchange ("NYSE") under the symbol "ECC." As of December 31, 2018, the NAV per share of the Company's common stock was \$12.40. The trading price of our common stock may, and often does, differ from NAV per share.

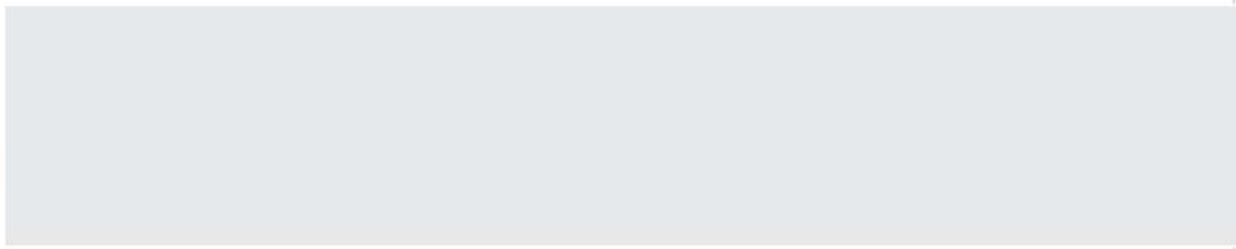

The closing price per share of our common stock was \$14.21 on December 31, 2018, representing a 14.60% premium to NAV per share as of such date.<sup>5</sup>

From our IPO through December 31, 2018, our common stock has traded on average at a 10.20% premium to NAV. As of February 14, 2019, the closing price per share of common stock was \$16.09, a premium of 17.36% compared to the midpoint of management's unaudited and estimated NAV range of \$13.66 to \$13.76 as of January 31, 2019.

In January 2018, the Company completed an underwritten public offering of 2,242,500 shares of its common stock (including full exercise of the underwriters' overallotment option) at a public offering price of \$18.25 per share, representing an 8.8% gross premium to the Company's NAV per share of common stock of \$16.77 as of December 31, 2017. The offering resulted in net proceeds to the Company of approximately \$38.9 million. Additionally, in connection with our at-the-market offering programs, the Company sold 2,099,400 shares of our common stock

<sup>5</sup> An investment company trades at a premium when the market price at which its shares trade is more than its net asset value per share. Alternatively, an investment company trades at a discount when the market price at which its shares trade is less than its net asset value per share. **Past performance is not indicative of, or a guarantee of, future performance.**

and 17,142 shares of ECCB preferred stock during the year ended December 31, 2018 for total net proceeds to the Company of approximately \$37.6 million.

During 2018, the Company declared and paid to common stockholders aggregate distributions totaling \$2.40 per share of common stock. This represents a 13.5% annualized distribution rate based on the average daily price of our common stock during the year ended December 31, 2018 of \$17.83 per share. An investor who purchased common stock as part of our IPO in October 2014 at \$20.00 per share has received total cash distributions of \$10.40 per share since the IPO. A certain portion of these distributions was comprised of a return of capital as described at the time of the applicable distribution.<sup>6</sup>

For the year ended December 31, 2018, the Company's net investment income and realized capital gains were, in the aggregate, \$1.63 per weighted average common share, which was below the \$2.40 per share in common distributions declared and paid during the year. The lower total was primarily attributable to the effects of spread compression impacting yield, "cash drag" from common stock issuance and non-recurring charges related to the redemption of the ECCZ notes and subsequent offering of the ECCX notes. While we believe these corporate actions related to ECCX and ECCZ are accretive to the Company in the long-term, they did weigh on earnings this year.

The Company remains highly focused on earning its regular common distribution over the long term through a combination of net investment income and net realized capital gains. While reset and refinancing activity in our portfolio and lower GAAP portfolio yields have impacted our net investment income, we believe the risk-adjusted returns of the Company are enhanced by varying our portfolio across vintage periods through new investments. In addition, now that a majority of the CLO equity positions in our portfolio have been reset and refinanced, and further given the current soft debt market, we generally expect the pace of resets and refinancings in our portfolio to be slower in 2019 than it was during 2017 and 2018. Due to this anticipated slowdown of resets and refinancings, and given that the costs associated with prior resets and refinancings have already been incurred by the Company, we would expect cash flows from investments and taxable income to increase from the prior year, which we believe should help ensure the sustainability of our regular distributions.

Each quarter since our IPO, quarterly cash flows from the investment portfolio have covered distributions on our common stock. These cash flows remained consistent in 2018, totaling

<sup>6</sup> To date, a portion of certain such distributions has been estimated to be a return of capital for U.S. GAAP purposes. For the fiscal periods ending December 31, 2018, December 31, 2017, and December 31, 2016, distributions made by the Company were comprised of a return of capital, as calculated on a per share basis, of 32.1%, 5.9% and 5.8%, respectively. Additionally, for the fiscal periods ending December 31, 2018, December 31, 2017, and December 31, 2016, distributions made by the Company were comprised of net realized capital gains, as calculated on a per share basis, of 1.7%, 8.6% and 5.0%, respectively. Distribution amounts not attributable to net realized capital gains or return of capital were sourced from net investment income. The foregoing reflects estimates made by the Company for U.S. GAAP purposes; the tax characteristics of distributions will vary and are reported separately after each tax year end. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income". Future distributions may consist of a return of capital. **Not a guarantee of future distributions or yield.**

\$111.8 million, or \$5.11 per weighted average common share. Excluding distributions from called investments, cash flows totaled \$91.8 million during 2018, or \$4.19 per weighted average common share.

We also want to highlight the Company's dividend reinvestment plan for common stockholders. This plan allows common stockholders to have their distributions automatically reinvested into new shares of common stock. If the prevailing market price of our common stock exceeds our NAV per share by a certain margin as described in the plan, such reinvestment is at a discount to the prevailing market price. We encourage all common stockholders to carefully review the terms of the plan.

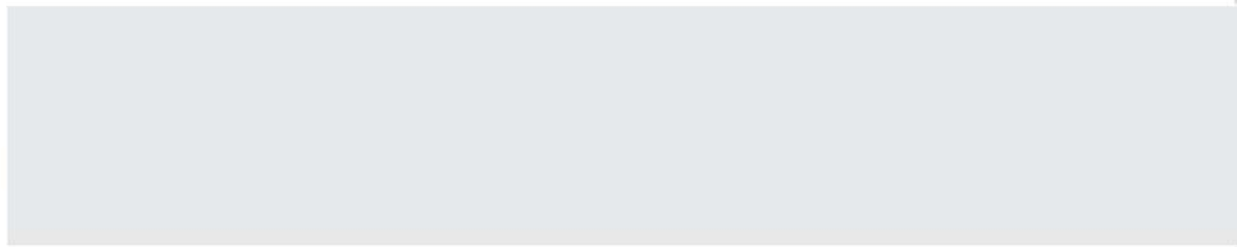

### Other Securities

In addition to our common stock, the Company has four other securities which trade on the NYSE, which are summarized below:

Security	NYSE Symbol	Par Amount Outstanding	Rate	Payment Frequency	Callable	Maturity
7.75% Series A Term Preferred Stock due 2022 ("Series A Term Preferred Stock")	ECCA	\$45.5 million	7.75%	Monthly	June 2018	June 2022
7.75% Series B Term Preferred Stock due 2026 ("Series B Term Preferred Stock")	ECCB	\$47.1 million	7.75%	Monthly	October 2021	October 2026
6.75% Notes due 2027 ("ECCY Notes")	ECCY	\$31.6 million	6.75%	Quarterly	September 2020	September 2027
6.6875% Notes due 2028 ("ECCX Notes")	ECCX	\$67.3 million	6.6875%	Quarterly	April 2021	April 2028

The Company achieved another significant milestone with the issuance of its ECCX Notes in April 2018. We took advantage of strong market conditions and effectively refinanced our ECCZ Notes, which were fully redeemed in May 2018. The ECCX Notes have a fixed coupon of 6.6875%, which is 31.25 basis points lower than the ECCZ Notes they replaced and represents our lowest cost of debt to date. Perhaps even more importantly, we replaced notes that had less than three years of life remaining with notes that have a ten-year maturity. As a result, the weighted average maturity on our outstanding notes and preferred stock is approximately eight years, up from six years prior to these transactions. In addition, all of our financing is fixed rate, which provides us with added certainty in a rising rate environment.

As of December 31, 2018, we had debt and preferred securities outstanding which totaled approximately 40.6% of our total assets (less current liabilities). This is above management's expectations under normal market conditions of operating the Company with leverage within a range of 25% to 35% of total assets, and was primarily driven by our mark-to-market unrealized losses at the end of 2018. It remains well within regulatory limits for companies like us.

### Monthly Common Distributions

The Company declared twelve monthly distributions of \$0.20 per share of common stock from January 2018 through December 2018 and paid a cumulative \$2.40 per share of common stock in 2018.<sup>7</sup> We intend to continue declaring monthly distributions on shares of our common stock, although we note that the actual components and amount of such distributions are subject to variation over time.

## PORTFOLIO OVERVIEW

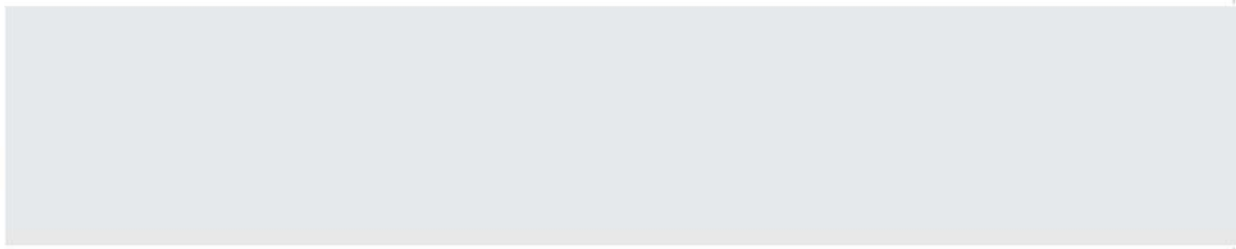

### 2018 Portfolio Update

Our portfolio continues to generate consistent cash flows. During the year ended December 31, 2018, the Company received cash distributions from our portfolio of \$111.8 million, or approximately \$5.11 per weighted average common share. Excluding distributions from called investments, cash flows totaled \$91.8 million during 2018, or \$4.19 per weighted average common share. We seek to reinvest cash flows in excess of our costs and distributions into new investments in a manner consistent with our investment objectives and strategy.

During the year ended December 31, 2018, the Company made 70 new CLO equity and debt investments with total purchase proceeds of approximately \$201.2 million. The Company also opportunistically sold 55 CLO equity and debt investments, generating aggregate sales proceeds of approximately \$113.5 million. While in general the Company operates with a buy-and-hold approach, many of these sales were typically focused on harvesting gains from opportunistic investments that the Company made last year and earlier this year in the secondary market at discounted prices. The proceeds from sales were typically earmarked for new purchases in the primary market.

In addition to new investment activity, the Company was particularly active in resetting CLOs in our portfolio. In 2018, 21 of the Company's CLOs completed resets, which allowed us to lengthen the reinvestment period of each CLO reset by up to five years while generally reducing their weighted average cost of debt. While these actions take significant time and effort (sometimes becoming more involved than negotiating a new CLO investment), we believe the resets are accretive to our net income. Many of these transactions occurred in CLOs where the Company, or the Company together with other clients of our Adviser, hold a majority interest in the equity class, providing us a meaningful advantage in pursuing additional value through

<sup>7</sup> A portion of certain such distributions has been estimated to be a return of capital for U.S. GAAP purposes. See also footnote 6 on previous page.

resets. As a reminder, a reset typically causes a one-time reduction in CLO equity cash flows. However, we believe this is money well spent and that our investments will allow us to harvest increased cash flows in the future versus had these actions not been taken.

While spread compression continues to have an impact on the portfolio, our recent investments have a WAEY above the WAEY of our overall portfolio at the time of investment. We believe our proactive refinance/reset activity should also enhance our WAEY over the longer term. As of December 31, 2018, the WAEY on our CLO equity portfolio was 13.30%, compared to 14.42% as of December 31, 2017. Importantly, we highlight the Company's effective yields include an allowance for future credit losses.

Our Adviser continues to seek attractive investment opportunities on our behalf and continues to evaluate a number of opportunities both in the primary and secondary markets. Maintaining varied exposure to CLO vintage periods remains a very important part of our investment approach. As of December 31, 2018, our Adviser has approximately \$2.4 billion of assets under management (inclusive of unfunded capital commitments). We believe the scale and experience of our Adviser in CLO investing provides the Company with meaningful advantages.

Included within the enclosed report, you will find detailed portfolio information, including certain look-through information related to the underlying collateral characteristics of the CLO equity and other unrated investments that we held as of December 31, 2018.

## MARKET OVERVIEW

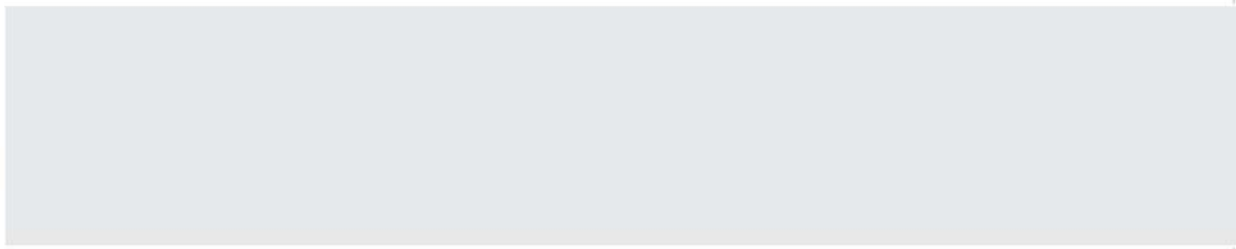

### Loan Market

The Credit Suisse Leveraged Loan Index (CSLLI) had a total return of 1.14% in 2018. Notably, loans were an exception to the trend of most asset classes generating a negative total return for the year. Indeed, this was the 25<sup>th</sup> year of positive total returns for the CSLLI in its 27 years of existence.

For the first nine months of 2018, there was significant demand for loans from CLOs, retail funds and institutional separately managed accounts. According to J.P. Morgan<sup>8</sup>, retail loan funds experienced over \$15.9 billion of net inflows through September 30, 2018. However, there was a significant shift in investor sentiment in the fourth quarter (principally in November and December) as investor concern grew related to interest rate policy, US/China trade relations and the potential for slowing GDP, among other things. In addition, loan investors faced a steady drumbeat of news stories highlighting declining lending standards and, in many cases, drawing flawed parallels to the subprime/CDO market that preceded the 2008-2009 Financial Crisis.

As we have noted previously, we expected that volatility in the loan market would likely be caused by retail funds. We believe that the technical factor that drove the decrease in loan prices during the fourth quarter was forced selling from retail loan funds. According to J.P. Morgan,

<sup>8</sup>JPMorgan Chase & Co. North American Credit Research – JPM High Yield and Leveraged Loan Research (cumulative 2018 reports).

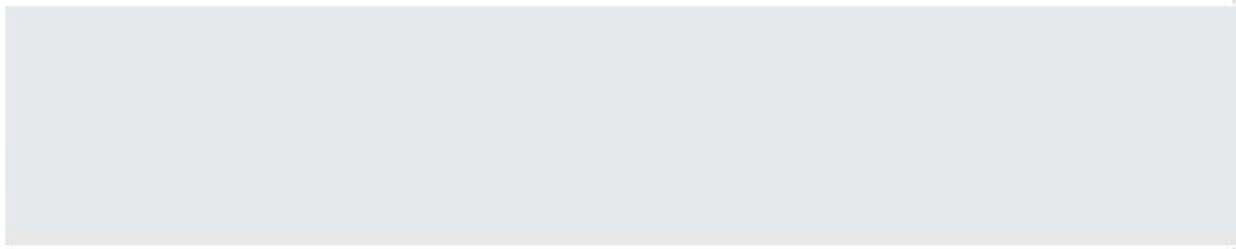

the retail loan fund complex suffered over \$20 billion of outflows during the fourth quarter of 2018. These net outflows were heavily concentrated in December, which saw \$15 billion exit loan funds, with three consecutive record weekly net outflows, culminating in a \$3.5 billion record weekly outflow for the week ended December 26, 2018.

During the fourth quarter, mass-media articles that were critical of loans and CLOs came with increasing frequency, which we believe impacted investor sentiment, particularly retail investors. In our view, these articles were generally unbalanced and tended to ignore pertinent facts that we believe are important when considering the asset class. As we have noted over the past couple of years, the demand for floating rate assets such as loans has exceeded the supply, and this has resulted in “borrower’s market” conditions. Specifically, leverage has increased, the protections contained within loan credit agreements have weakened and EBITDA adjustments have increased. However, we believe corporate fundamentals currently remain solid in the aggregate and our view is that the default rate in the loan market is likely to remain below the historical average of 3.0% over the next one to two years.

According to S&P Capital IQ, total institutional loan issuance was \$436 billion and total institutional loans outstanding reached a record \$1.15 trillion as of December 31, 2018. However, it is worth noting that since 2014, the loan market has grown by approximately 8% per year, which we consider to be a healthy but measured pace. For comparison, from year-end 2006 through year-end 2007 (a time associated with credit excesses), the loan market grew by 39%. We simply aren’t seeing that type of growth today.

While CLO portfolios still faced some loan spread compression during the first nine months of the year, the pace of the tightening slowed considerably in the fourth quarter. This moderation in loan spread compression can be seen in our look-through weighted average loan spread falling 14 basis points during the year to 3.52%, as compared to the 31 basis points of spread compression experienced during 2017. During the fourth quarter, the weighted average loan spread fell just two basis points from 3.54% to 3.52%, reflecting the much slower pace.

When considering the price movement in loans during the fourth quarter of 2018, and perceptions conveyed in the media about the loan markets, it is important to note that the lagging 12-month default rate by principal amount on the S&P/LSTA Leveraged Loan Index remains well below the historical average. As of December 31, 2018, this default rate was 1.63% versus the long-term average of 3.0%. By comparison, at the end of 2017, the lagging 12-month default rate was 2.1%, thus the lagging default rate actually improved during 2018. We expect defaults to remain below the historical average over the next one to two years given the low percentage of loans with maturities before 2022, that approximately 80% of the loan market is covenant-lite, according to S&P Capital IQ (and therefore, we expect few technical defaults), and that the U.S. economy and corporate fundamentals remain relatively healthy. However, as we have shared in the past, a low default rate does not mean that the loan market will not experience loan price volatility. When loan price volatility inevitably presents itself again, we believe our portfolio of CLOs will be well positioned to take advantage of opportunities on that day. For example, we expect that CLOs that have recently been reset will benefit to a meaningfully greater extent during such periods of volatility than had their reinvestment period not been extended.

From the perspective of long-term CLO equity investors, an environment of technically-driven loan price volatility without an increase in defaults over the near to medium term is extremely attractive.

### CLO Market

As a result of significant CLO supply and then broader volatility during the fourth quarter of 2018, the cost of financing for CLOs widened throughout the course of the year. According to Wells Fargo<sup>9</sup>, the weighted cost of CLO debt increased by 15bps to roughly 175bps during the year. As a reference point, CLOs issued in the first quarter of 2018 posted the lowest average cost of debt of the post crisis-era at 144bps. This included several new issue CLO AAA prints inside of L+95bps.

Throughout the year, it was widely noted that the “CLO arbitrage”, which refers to the difference between the current weighted average loan spread on the loan portfolio and the weighted average cost of debt on the CLO debt, looked less favorable. Although the CLO arbitrage has improved recently, we believe too many in the market get “lost in the model” and that many future variables will drive long-term performance of the 2018 vintages. Indeed, it is difficult to recall a period where the “CLO arbitrage” was touted as favorable.

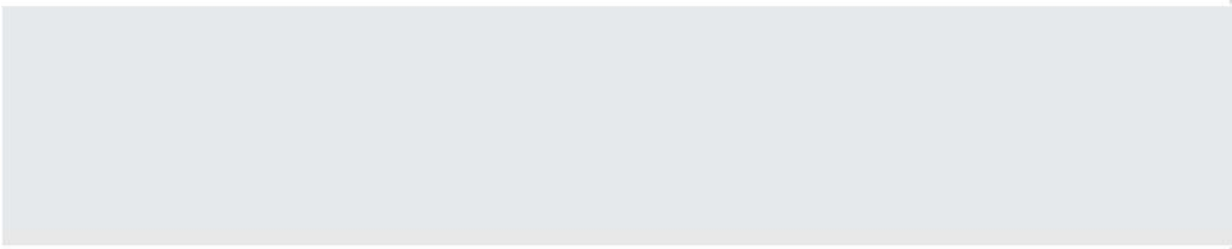

In general, we believe the market grossly undervalues the reinvestment option inherent within CLOs, which enable CLOs to benefit from loan price volatility. The “CLO arbitrage” often cited in the market typically does not assume any volatility in loan prices during the reinvestment period of the CLO.

Although issuance slowed at the end of the fourth quarter, 2018 was overall a strong year for issuance. According to S&P Capital IQ, new US CLO issuance in 2018 totaled a record \$128.9 billion, eclipsing the previous high of \$124 billion in 2014. In addition to a strong year for new issuance, 2018 also saw significant volume in resets and refinancings, with market activity during the year favoring resets. In total, according to S&P Capital IQ, reset volume for 2018 was a record \$122.1 billion, while refinancing volume came in at \$33.8 billion.

When considering the attention-grabbing issuance numbers, it is important to note that reset and refinancing volume typically is a net neutral impact on outstandings in the market. Further, the volume of called CLOs is seldom reported. A review of the increase in CLOs outstanding over the past 5 years shows a compounded annual growth rate (CAGR) of just 12%.

According to S&P Capital IQ, 106 CLO collateral managers in the US issued CLOs in 2018. This compares to 95 issuers in 2017. The number of issuers in 2018 surpassed the 105 issuers that came to market in 2014.

<sup>9</sup> Wells Fargo North American Credit Research (cumulative 2018 reports).

As we look forward into 2019, we expect approximately \$100 billion of primary CLO issuance. It is our expectation that reset activity will again surpass refinancing activity in 2019, with, in our estimation, approximately \$70 billion of resets and \$40 billion of refinancing transactions.

#### ADDITIONAL INFORMATION

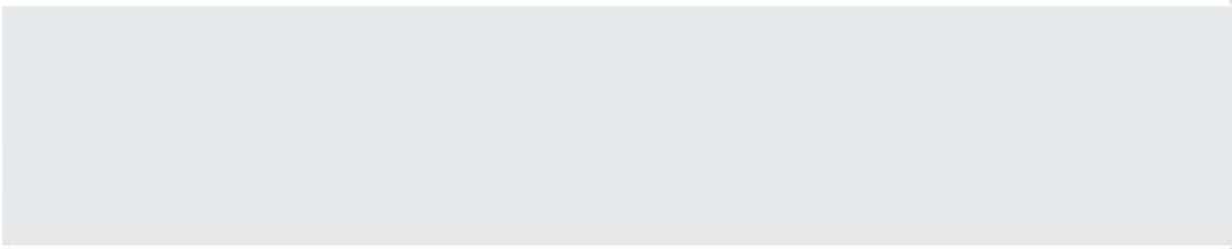

In addition to the Company's regulatory requirement to file certain quarterly and annual portfolio information as described further in the enclosed report, the Company makes a monthly estimate of NAV and certain additional financial information available to investors via our website ([www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com)). This information includes (1) an estimated range of the Company's net investment income and realized capital gains or losses per share of common stock for each calendar quarter end, generally made available within the first fifteen days after the applicable calendar month end, (2) an estimated range of the Company's NAV per share of common stock for the prior month end and certain additional portfolio-level information, generally made available within the first fifteen days after the applicable calendar month end, and (3) during the latter part of each month, an updated estimate of NAV, if applicable, and, with respect to each calendar quarter end, an updated estimate of the Company's net investment income and realized capital gains or losses per share for the applicable quarter, if available.

#### SUBSEQUENT DEVELOPMENTS

Management's unaudited estimate of the range of the Company's NAV per share of common stock was between \$13.66 and \$13.76 as of January 31, 2019. The midpoint of this range represents an increase of 10.6% compared to the NAV per common share as of December 31, 2018.

On January 2, 2019, the Company declared three separate distributions of \$0.20 per share on its common stock. The first distribution was paid on January 31, 2019 to holders of record on January 14, 2019. The additional distributions are payable on each of February 28, 2019 and March 29, 2019 to holders of record on February 12, 2019 and March 12, 2019, respectively.

On January 2, 2019, the Company declared three separate distributions of \$0.161459 per share on each series of preferred stock. The first distribution was paid on January 31, 2019 to holders of record on January 14, 2019. The additional distributions are payable on each of February 28, 2019 and March 29, 2019 to holders of record on February 12, 2019 and March 12, 2019, respectively.

In the period from January 1, 2019 through February 14, 2019, the Company received cash distributions on its investment portfolio of \$24.7 million. During that same period, the Company made gross new investments totaling \$21.1 million. As of February 14, 2019, the Company had \$15.9 million of cash available for investment.

We appreciate the trust and confidence our stockholders have placed in the Company.

Thomas Majewski  
Chief Executive Officer

*This letter is intended to assist stockholders in understanding the Company's performance during the twelve months ended December 31, 2018. The views and opinions in this letter were current as of February 14, 2019. Statements other than those of historical facts included herein may constitute forward-looking statements and are not guarantees of future performance or results and involve a number of risks and uncertainties. ## Important Information

This report is transmitted to the stockholders of Eagle Point Credit Company Inc. (“we”, “us”, “our” or the “Company”) and is furnished pursuant to certain regulatory requirements. This report and the information and views herein do not constitute investment advice, or a recommendation or an offer to enter into any transaction with the Company or any of its affiliates. This report is provided for informational purposes only, does not constitute an offer to sell securities of the Company and is not a prospectus. From time to time, the Company may have a registration statement relating to one or more of its securities on file with the US Securities and Exchange Commission (“SEC”). Any registration statement that has not yet been declared effective by the SEC, and any prospectus relating thereto, is not complete and may be changed. Any securities that are the subject of such a registration statement may not be sold until the registration statement filed with the SEC is effective.

The information and its contents are the property of Eagle Point Credit Management LLC (the “Adviser”) and/or the Company. Any unauthorized dissemination, copying or use of this presentation is strictly prohibited and may be in violation of law. This presentation is being provided for informational purposes only.

Investors should read the Company’s prospectus and SEC filings (which are publicly available on the EDGAR Database on the SEC website at <http://www.sec.gov>) carefully and consider their investment goals, time horizons and risk tolerance before investing in the Company. Investors should consider the Company’s investment objectives, risks, charges and expenses carefully before investing in securities of the Company. There is no guarantee that any of the goals, targets or objectives described in this report will be achieved.

An investment in the Company is not appropriate for all investors. The investment program of the Company is speculative, entails substantial risk and includes investment techniques not employed by traditional mutual funds. An investment in the Company is not intended to be a complete investment program. Shares of closed-end investment companies, such as the Company, frequently trade at a discount from their net asset value (“NAV”), which may increase investors’ risk of loss. Past performance is not indicative of, or a guarantee of, future performance. The performance and certain other portfolio information quoted herein represents information as of December 31, 2018. Nothing herein should be relied upon as a representation as to the future performance or portfolio holdings of the Company. Investment return and principal value of an investment will fluctuate, and shares, when sold, may be worth more or less than their original cost. The Company’s performance is subject to change since the end of the period noted in this report and may be lower or higher than the performance data shown herein.

Neither the Adviser nor the Company provide legal, accounting or tax advice. Any statement regarding such matters is explanatory and may not be relied upon as definitive advice. Investors should consult with their legal, accounting and tax advisors regarding any potential investment. The information presented herein is as of the dates noted herein and is derived from financial and other information of the Company, and, in certain cases, from third party sources and reports (including reports of third party custodians, CLO managers and trustees) that have not been independently verified by the Company. As noted herein, certain of this information is estimated and unaudited, and therefore subject to change. We do not represent that such information is accurate or complete, and it should not be relied upon as such.

### About Eagle Point Credit Company Inc.

The Company is a publicly-traded, non-diversified, closed-end management investment company. The Company’s investment objectives are to generate high current income and capital appreciation primarily through investment in equity and junior debt tranches of CLOs. The Company is externally managed and advised by Eagle Point Credit Management LLC. The Company makes certain unaudited portfolio information available each month on its website in addition to making certain other unaudited financial information available on its website ([www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com)). This information includes (1) an estimated range of the Company’s net investment income (“NII”) and realized capital gains or losses per weighted average share of common stock for each calendar quarter end, generally made available within the first fifteen days after the applicable calendar month end, (2) an estimated range of the Company’s NAV per share of common stock for the prior month end and certain additional portfolio-level information, generally made available within the first fifteen days after the applicable calendar month end, and (3) during the latter part of each month, an updated estimate of NAV, if applicable, and, with respect to each calendar quarter end, an updated estimate of the Company’s NII and realized capital gains or losses for the applicable quarter, if available.

Information contained on our website is not incorporated by reference into this Annual Report and you should not consider information contained on our website to be part of this Annual Report or any other report we file with the SEC.

## Forward-Looking Statements

This report may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Statements other than statements of historical facts included in this report may constitute forward-looking statements and are not guarantees of future performance or results and involve a number of risks and uncertainties. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in the Company’s filings with the SEC. The Company undertakes no duty to update any forward-looking statement made herein. All forward-looking statements speak only as of the date of this report.

## Notes

- <sup>1</sup> The summary of portfolio investments shown is based on the estimated fair value of the underlying positions as of December 31, 2018.
- <sup>2</sup> The information presented herein is on a look-through basis to the collateralized loan obligation, or “CLO”, equity and related investments (i.e. loan accumulation facilities) held by the Company as of December 31, 2018 (except as otherwise noted) and reflects the aggregate underlying exposure of the Company based on the portfolios of those investments. The data is estimated and unaudited and is derived from CLO trustee reports received by the Company relating to December 2018 and from custody statements and/or other information received from CLO collateral managers and other third party sources. Information relating to the market price of underlying collateral is as of month end; however, with respect to other information shown, depending on when such information was received, the data may reflect a lag in the information reported. As such, while this information was obtained from third party data sources, December 2018 trustee reports and similar reports, other than market price, it does not reflect actual underlying portfolio characteristics as of December 31, 2018 and this data may not be representative of current or future holdings.
- <sup>3</sup> We obtain exposure in underlying senior secured loans indirectly through our investments in CLOs.
- <sup>4</sup> Credit ratings shown are based on those assigned by Standard & Poor’s Rating Group, or “S&P,” or, for comparison and informational purposes, if S&P does not assign a rating to a particular obligor, the weighted average rating shown reflects the S&P equivalent rating of a rating agency that rated the obligor provided that such other rating is available with respect to a CLO equity or related investment held by us. In the event multiple ratings are available, the lowest S&P rating, or if there is no S&P rating, the lowest equivalent rating, is used. The ratings of specific borrowings by an obligor may differ from the rating assigned to the obligor and may differ among rating agencies. For certain obligors, no rating is available in the reports received by the Company. Such obligors are not shown in the graphs and, accordingly, the sum of the percentages in the graphs may not equal 100%. Ratings below BBB- are below investment grade. Further information regarding S&P’s rating methodology and definitions may be found on its website ([www.standardandpoors.com](http://www.standardandpoors.com)). This data includes underlying portfolio characteristics of the Company’s CLO equity and loan accumulation facility portfolio.
- <sup>5</sup> Industry categories are based on the S&P industry categorization of each obligor as reported in CLO trustee reports to the extent so reported. Certain CLO trustee reports do not report the industry category of all of the underlying obligors and where such information is not reported, it is not included in the summary look-through industry information shown. As such, the Company’s exposure to a particular industry may be higher than that shown if industry categories were available for all underlying obligors. In addition, certain underlying obligors may be re-classified from time to time based on developments in their respective businesses and/or market practices. Accordingly, certain underlying borrowers that are currently, or were previously, summarized as a single borrower in a particular industry may in current or future periods be reflected as multiple borrowers or in a different industry, as applicable.
- <sup>6</sup> The look-through data shown is adjusted to skip incomplete obligors information provided on the trustee report; if it was shown, it would represent 0.6%. In addition, certain CLO trustee reports do not provide the industry classification for certain underlying obligors. These obligors are not summarized in the look-through industry data shown; if they were reflected, they would represent 5.9% of the total industry exposure.

## Summary of Certain Unaudited Portfolio Characteristics

The information presented below is on a look-through basis to the collateralized loan obligation, or “CLO”, equity and related investments held by the Company as of December 31, 2018 (except as otherwise noted) and reflects the aggregate underlying exposure of the Company based on the portfolios of those investments. The data is estimated and unaudited and is derived from CLO trustee reports received by the Company relating to December 2018 and from custody statements and/or other information received from CLO collateral managers, or other third party sources.

### Summary of Portfolio Investments (as of 12/31/2018)<sup>1</sup>

- (1) The Company is not affiliated with, nor does it "control" (as such term is defined in the Investment Company Act of 1940 (the "1940 Act")), any of the issuers listed. In general, under the 1940 Act, we would be presumed to "control" an issuer if we owned 25% or more of its voting securities.
- (2) All investments are restricted and categorized as structured finance securities.
- (3) Fair value is determined in good faith in accordance with the Company's valuation policy and is approved by the Company's Board of Directors (the "Board").
- (4) CLO debt positions reflect the coupon rates as of December 31, 2018.
- (5) The fair value of all investments was determined using significant, unobservable inputs.
- (6) CLO subordinated notes and income notes are considered CLO equity positions. CLO equity positions are entitled to recurring distributions which are generally equal to the remaining cash flow of payments made by underlying securities less contractual payments to debt holders and fund expenses. The effective yield is estimated based upon the current projection of the amount and timing of these recurring distributions in addition to the estimated amount of terminal principal payment. Effective yields for the Company's CLO equity positions are monitored and evaluated at each recurring reporting date. It is the Company's policy to update the effective yield for each CLO equity position held within the Company's portfolio on the respective anniversary date of the CLO investment's formation. The Company also updates a CLO equity investment's effective yield in each instance where there is a respective partial sale, add-on, purchase, refinancing or reset involving the CLO equity investment held. The estimated yield and investment cost may ultimately not be realized. As of December 31, 2018, the Company's weighted average effective yield on its aggregate CLO equity positions, based on current amortized cost, was 13.30%.
- (7) Fair value includes the Company's interest in fee rebates on CLO subordinated and income notes.
- (8) As of December 31, 2018, the investment has been called. Expected value of residual distributions, once received, is anticipated to be recognized as return of capital, pending any remaining amortized cost, and/or realized gain for any amounts received in excess of such amortized cost.
- (9) As of December 31, 2018, investment cost has been fully amortized. Subsequent distributions, once received, will be recognized as realized gain.
- (10) As of December 31, 2018, the effective yield has been estimated to be 0%. The aggregate projected amount of future recurring distributions and terminal principal payment is less than the amortized investment cost. Future recurring distributions, once received, will be recognized solely as return of capital until the aggregate projected amount of future recurring distributions and terminal principal payment exceeds the amortized investment cost.
- (11) For the period ending December 31, 2018, the Company converted its CLO equity investment from subordinated notes to income notes.
- (12) Investment is denominated in EUR.
- (13) Loan accumulation facilities are financing structures intended to aggregate loans that may be used to form the basis of a CLO vehicle.
- (14) The Company has accounted for its 6.6875% notes due 2028 utilizing the fair value option election under ASC Topic 825. Accordingly, the Series 2028 Notes will be carried at their fair value.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

**1. ORGANIZATION**

Eagle Point Credit Company Inc. (the “Company”) is an externally managed, non-diversified closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company’s primary investment objective is to generate high current income, with a secondary objective to generate capital appreciation. The Company seeks to achieve its investment objectives by investing primarily in equity and junior debt tranches of collateralized loan obligations (“CLOs”) that are collateralized by a portfolio consisting primarily of below investment grade U.S. senior secured loans with a large number of distinct underlying borrowers across various industry sectors. The Company may also invest in other securities and instruments related to these investments or that Eagle Point Credit Management LLC (the “Adviser”) believes are consistent with the Company’s investment objectives, including senior debt tranches of CLOs and loan accumulation facilities. From time to time, in connection with the acquisition of CLO equity, the Company may receive fee rebates from the CLO issuer. The CLO securities in which the Company primarily seeks to invest are unrated or rated below investment grade and are considered speculative with respect to timely payment of interest and repayment of principal. The Company’s common stock is listed on the New York Stock Exchange (the “NYSE”) under the symbol “ECC.”

As of December 31, 2018, the Company had two wholly-owned subsidiaries: Eagle Point Credit Company Sub (Cayman) Ltd., a Cayman Islands exempted company, and Eagle Point Credit Company Sub II (Cayman) Ltd, a Cayman Islands exempted company.

The Company was initially formed on March 24, 2014 as Eagle Point Credit Company LLC, a Delaware limited liability company and a wholly-owned subsidiary of Eagle Point Credit Partners Sub Ltd., a Cayman Island exempted company (the “Sole Member”), which, in turn, is a subsidiary of Eagle Point Credit Partners LP, a private fund managed by the Adviser.

The Company commenced operations on June 6, 2014, the date the Sole Member contributed, at fair value, a portfolio of cash and securities to the Company.

For the period of June 6, 2014 to October 5, 2014, the Company was a wholly-owned subsidiary of the Sole Member. As of October 5, 2014, the Company had 2,500,000 units issued and outstanding, all of which were held by the Sole Member.

On October 6, 2014, the Company converted from a Delaware limited liability company into a Delaware corporation (the “Conversion”). At the time of the Conversion, the Sole Member became a stockholder of Eagle Point Credit Company Inc. In connection with the Conversion, the Sole Member converted 2,500,000 units of the Delaware limited liability company into shares of common stock in the Delaware corporation at \$20 per share, resulting in 8,656,057 shares and an effective conversion rate of 3.4668 shares per unit. On October 7, 2014, the Company priced its initial public offering (the “IPO”) and sold an additional 5,155,301 shares of its common stock at a public offering price of \$20 per share. On October 8, 2014, the Company’s shares began trading on the NYSE.

On July 20, 2016, the Company entered into a custody agreement with Wells Fargo Bank, National Association (“Wells Fargo”), pursuant to which the Company’s portfolio of securities are held by Wells Fargo. The principal business address of Wells Fargo is 9062 Old Annapolis Road, Columbia, Maryland 21045.

The Company intends to operate so as to qualify to be taxed as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), for federal income tax purposes.

The Adviser is the investment adviser of the Company and manages the investments of the Company subject to the supervision of the Company’s Board of Directors (the “Board”). The Adviser is registered as an investment adviser with the U.S. Securities and Exchange Commission (the “SEC”) under the Investment Advisers Act of 1940, as amended. Eagle Point Administration LLC, an affiliate of the Adviser, is the administrator of the Company (the “Administrator”).

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### **Basis of Accounting**

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany accounts have been eliminated upon consolidation. The Company is considered an investment company under accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 *Financial Services – Investment Companies*. Items included in the consolidated financial statements are measured and presented in United States dollars.

### **Use of Estimates**

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions which affect the reported amounts included in the consolidated financial statements and accompanying notes as of the reporting date. Actual results may differ from those estimated.

### **Valuation of Investments**

The most significant estimate inherent in the preparation of the consolidated financial statements is the valuation of investments. In the absence of readily determinable fair values, fair value of the Company’s investments is determined in accordance with the Company’s valuation policy. Due to the uncertainty of valuation, this estimate may differ significantly from the value that would have been used had a ready market for the investments existed, and the differences could be material.

There is no single method for determining fair value in good faith. As a result, determining fair value requires judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments held by the Company.

The Company accounts for its investments in accordance with U.S. GAAP, and fair values its investment portfolio in accordance with the provisions of the FASB ASC Topic 820 *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. Investments are reflected in the consolidated financial statements at fair value. Fair value is the estimated amount that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (i.e., the exit price). The Company’s fair valuation process is reviewed and approved by the Board.

The fair value hierarchy prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment, the characteristics specific to the investment and the state of the marketplace (including the existence and transparency of transactions between market participants). Investments with readily available actively quoted prices, or for which fair value can be measured from actively quoted prices in an orderly market, will generally have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories based on inputs:

- Level I – Observable, quoted prices for identical investments in active markets as of the reporting date.
- Level II – Quoted prices for similar investments in active markets or quoted prices for identical investments in markets that are not active as of the reporting date.
- Level III – Pricing inputs are unobservable for the investment and little, if any, active market exists as of the reporting date. Fair value inputs require significant judgment or estimation from the Adviser.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

In certain cases, inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given investment is based on the lowest level of input significant to that fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to the investment.

Investments for which observable, quoted prices in active markets do not exist are reported at fair value based on Level III inputs. The amount determined to be fair value may incorporate the Adviser's own assumptions (including assumptions the Adviser believes market participants would use in valuing investments and assumptions relating to appropriate risk adjustments for nonperformance and lack of marketability), as provided for in the Company's valuation policy and accepted by the Board.

An estimate of fair value is made for each investment at least monthly taking into account information available as of the reporting date. For financial reporting purposes, valuations are determined by the Board on a quarterly basis.

See Note 3 "Investments" for further discussion relating to the Company's investments.

In valuing the Company's investments in CLO debt, CLO equity and loan accumulation facilities, the Adviser considers a variety of relevant factors, including price indications from multiple dealers, or as applicable, a third-party pricing service, recent trading prices for specific investments, recent purchases and sales known to the Adviser in similar securities and output from a third-party financial model. The third-party financial model contains detailed information on the characteristics of CLOs, including recent information about assets and liabilities, and is used to project future cash flows. Key inputs to the model, including assumptions for future loan default rates, recovery rates, prepayment rates, reinvestment rates and discount rates are determined by considering both observable and third-party market data and prevailing general market assumptions and conventions as well as those of the Adviser.

The Company engages a third-party independent valuation firm as an input to the Company's valuation of the fair value of its investments in CLO equity. The valuation firm's advice is only one factor considered in the valuation of such investments, and the Board does not rely on such advice in determining the fair value of the Company's investments in accordance with the 1940 Act.

**Other Financial Assets and Financial Liabilities at Fair Value**

The Fair Value Option ("FVO") under FASB ASC Subtopic 825-10 Fair Value Option ("ASC 825") allows companies an irrevocable election to use fair value as the initial and subsequent accounting measurement for certain financial assets and liabilities. The decision to elect the FVO is determined on an instrument-by-instrument basis and must be applied to an entire instrument. Assets and liabilities measured at fair value are required to be reported separately from those instruments measured using another accounting method and changes in fair values attributable to instrument-specific credit risk on financial liabilities for which the FVO is elected are required to be presented separately in other comprehensive income. Additionally, upfront offering costs related to such instrument are recognized in earnings as incurred and not deferred.

The Company elected to account for its 6.6875% Unsecured Notes due 2028 (the "Series 2028 Notes") utilizing the FVO under ASC 825. The primary reasons for electing the FVO are to reflect economic events in the same period in which they are incurred and address simplification of reporting and presentation.

**Investment Income Recognition**

Interest income from investments in CLO debt is recorded using the accrual basis of accounting to the extent such amounts are expected to be collected. Amortization of premium or accretion of discount is recognized using the effective interest method.

CLO equity investments and fee rebates recognize investment income for U.S. GAAP purposes on the accrual

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

basis utilizing an effective interest methodology based upon an effective yield to maturity utilizing projected cash flows. ASC Topic 325-40, *Beneficial Interests in Securitized Financial Assets*, requires investment income from CLO equity investments and fee rebates to be recognized under the effective interest method, with any difference between cash distributed and the amount calculated pursuant to the effective interest method being recorded as an adjustment to the cost basis of the investment.

Effective yields for the Company's CLO equity positions are monitored and evaluated at each reporting date. It is the Company's policy to update the effective yield for each CLO equity position held within the Company's portfolio on the respective anniversary date of the CLO investment's formation. The Company also updates a CLO equity investment's effective yield in each instance where there is a respective partial sale, add-on purchase, refinancing or reset involving the CLO equity investment held.

Interest income from loan accumulation facilities is characterized and recorded based on information provided by the trustees of each loan accumulation facility.

**Other Income**

Other income includes the Company's share of income under the terms of fee rebate agreements.

**Interest Expense**

Interest expense includes the Company's distributions associated with its 7.75% Series A Term Preferred Stock due 2022 (the "Series A Term Preferred Stock") and its 7.75% Series B Term Preferred Stock due 2026 (the "Series B Term Preferred Stock," and collectively with the Series A Term Preferred Stock, the "Preferred Stock"), and interest, paid and accrued, associated with its 7.00% Unsecured Notes which were fully redeemed on May 24, 2018 (the "Series 2020 Notes"), its 6.75% Unsecured Notes due 2027 (the "Series 2027 Notes"), and its Series 2028 Notes, collectively with the Series 2020 Notes and the Series 2027 Notes, the "Unsecured Notes").

For the year ended December 31, 2018, the Company incurred a total of \$7,609,046 in interest expense on its Preferred Stock, of which, \$0 was payable as of December 31, 2018. For the year ended December 31, 2018, the Company incurred a total of \$7,187,873 in interest expense on the Unsecured Notes, of which \$0 was payable as of December 31, 2018.

Interest expense also includes the Company's amortization of deferred issuance costs associated with its Preferred Stock and certain Unsecured Notes, as well as amortization of original issue discounts and accretion of premiums associated with its Series B Term Preferred Stock and its Series 2020 Notes.

See Note 6 "Mandatorily Redeemable Preferred Stock" and Note 7 "Unsecured Notes" for further discussion relating to Preferred Stock issuances and Unsecured Notes issuances, respectively.

**Deferred Issuance Costs**

Deferred issuance costs on liabilities, which the Company does not measure at fair value under the FVO, consist of fees and expenses incurred in connection with the issuance of Preferred Stock and certain Unsecured Notes, as well as unamortized original issue discounts and premiums. The deferred issuance costs are capitalized at the time of issuance and amortized using the effective interest method over the respective terms of the Preferred Stock and certain Unsecured Notes. Amortization of deferred issuance costs is reflected in interest expense on mandatorily redeemable Preferred Stock and interest expense on certain Unsecured Note balances in the Consolidated Statement of Operations. In the event of an early redemption of the Preferred Stock or certain Unsecured Notes, the remaining balance of unamortized deferred issuance costs associated with such Preferred Stock or certain Unsecured Notes will be accelerated into net realized loss on extinguishment of debt on the Consolidated Statement of Operations.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

**Securities Transactions**

The Company records the purchases and sales of securities on trade date. Realized gains and losses on investments sold are recorded on the basis of the specific identification method.

**Cash and Cash Equivalents**

The Company has defined cash and cash equivalents as cash and short-term, highly liquid investments with original maturities of three months or less from the date of purchase. The Company maintains its cash in bank accounts, which, at times, may exceed federal insured limits. The Adviser monitors the performance of the financial institution where the accounts are held in order to manage risk associated with such accounts. No cash equivalent balances were held as of December 31, 2018.

**Foreign Currency**

The Company does not isolate the portion of its results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market price of such investments. Such fluctuations are included with the net change in unrealized appreciation (depreciation) on investments and foreign currency. Reported net realized foreign exchange gains or losses may arise from sales of foreign currency, currency gains or losses realized between the trade and settlement dates on investment transactions, and the difference between the amounts of dividends and interest income recorded on the Company's books and the U.S. dollar equivalent of the amounts actually received.

**Expense Recognition**

Expenses are recorded on the accrual basis of accounting.

**Prepaid Expenses**

Prepaid expenses consist primarily of insurance premiums, filing fees, shelf registration expenses and at-the-market ("ATM") program expenses. Insurance premiums are amortized over the term of the current policy. Shelf registration expenses and ATM program expenses represent fees and expenses incurred in connection with maintaining the Company's shelf registration and ATM program that have not been allocated to date.

**Federal and Other Taxes**

The Company intends to continue to operate so as to qualify to be taxed as a RIC under subchapter M of the Code and, as such, to not be subject to federal income tax on the portion of its taxable income and gains distributed to stockholders. To qualify for RIC tax treatment, among other requirements, the Company is required to distribute at least 90% of its investment company taxable income, as defined by the Code. Accordingly, the Company intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal income provision is required. The Company has adopted November 30th as its fiscal tax year end. The Company intends to file federal income and excise tax returns as well as any applicable state tax filings. The statute of limitations on the Company's tax return filings generally remain open for three years. The Company has analyzed its tax positions for its fiscal year ended December 31, 2018, including open tax years, and does not believe there are any uncertain tax positions requiring recognition in the Company's financial statements.

Because U.S. federal income tax regulations differ from U.S. GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the consolidated financial statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for federal income tax purposes. The tax basis components of distributable earnings differ from the amounts reflected in the Consolidated Statement of Assets and Liabilities due to temporary book/tax differences arising primarily from partnerships and passive foreign investment company investments.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

During the year ended December 31, 2018, a reclassification of \$1,394,531 among the components of the Company's net assets representing repayment to the Company of a portion of management and incentive fees was made between aggregate distributable earnings (losses) and paid-in capital. See Note 4 "Related Party Transactions" for further discussion on the repayment to the Company of a portion of management and incentive fees.

For the tax year ended November 30, 2018, the estimated components of distributable earnings, on a tax basis, were as follows:

	For the tax year ended November 30, 2018
Undistributed ordinary income	\$ -
Capital loss carryforward	12,409,818
Unrealized depreciation	(257,597,374)

As of the tax period ended November 30, 2018, the Company has \$0 of short-term capital losses and \$12,409,818 of long-term capital losses which can be carried forward for an unlimited period.

The tax character of distributions declared and paid on the Company's common shares and preferred stock for the tax year ended November 30, 2018 were ordinary dividends of \$39,143,538 and return of capital of \$19,478,443 and for the tax year ended November 30, 2017 were ordinary dividends of \$59,679,146 and return of capital of \$952,542 and for the tax year ended November 30, 2016 were ordinary dividends of \$38,751,382 and for the tax year ended November 30, 2015 were ordinary dividends of \$22,391,925 and return of capital of \$11,958,421. Tax information for the tax year ended November 30, 2018 is estimated and is not considered final until the Company files its tax return.

As of December 31, 2018, the Company's tax cost for federal income tax purposes was \$713,973,943. Accordingly, accumulated net unrealized depreciation on investments held by the Company was \$(257,597,374), consisting of \$2,017,845 gross unrealized appreciation and \$(259,615,219) gross unrealized depreciation.

Depending on the level of taxable income earned in a tax year, the Company is permitted to carry forward taxable income (including net capital gains, if any) in excess of its current year distributions from the current tax year into the next tax year and pay a nondeductible 4% U.S. federal excise tax on such taxable income, as required.

To the extent that the Company has determined that its estimated current year annual taxable income will be in excess of estimated current year distributions from such income, the Company accrues and pays excise tax on its estimated excess taxable income that has not been distributed. The Company has not accrued U.S. federal excise tax for the year ended December 31, 2018 as common distributions are expected to cover taxable income for the period.

For the year ended December 31, 2018 the Company incurred \$110,050 in Delaware franchise tax expense.

On June 28, 2018, the Company received a refund of \$216,904 related to previously paid Delaware franchise tax. The refund was recorded as a credit to other expenses on the Consolidated Statement of Operations. Additionally, the Company received a credit of \$90,000 towards its annual 2018 Delaware franchise tax liability. The refund and the credit were due to the Company's overpayment of the Delaware franchise tax in previous years.

**Distributions**

The composition of distributions paid to common stockholders from net investment income and capital gains are determined in accordance with U.S. federal income tax regulations, which differ from U.S. GAAP. Distributions to common stockholders are comprised of net investment income, realized gains or losses and return of capital for either U.S. federal income tax or U.S. GAAP purposes and are intended to be paid monthly. Distributions paid to

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

common stockholders are recorded as a liability on record date and, unless a common stockholder opts out of the Company's dividend reinvestment plan (the "DRIP"), are automatically reinvested in full shares of the Company as of the payment date, pursuant to the DRIP. The Company's common stockholders who opt-out of participation in the DRIP (including those common stockholders whose shares are held through a broker who has opted out of participation in the DRIP) will receive all distributions in cash.

In addition to the regular monthly distributions, and subject to available taxable earnings of the Company, the Company may make periodic special distributions. A special distribution represents the excess of the Company's net taxable income over the Company's aggregate monthly distributions paid during the year.

For the year ended December 31, 2018, the Company declared and paid distributions on common stock of \$52,348,986 or \$2.40 per share.

For the year ended December 31, 2018, the Company declared and paid dividends on the Series A Term Preferred Stock of \$3,522,390 or \$1.94 per share.

For the year ended December 31, 2018, the Company declared and paid dividends on the Series B Term Preferred Stock of \$3,619,086 or \$1.94 per share.

The characterization of distributions paid to stockholders, as set forth in the Financial Highlights, reflect estimates made by the Company for U.S. GAAP purposes. Such estimates are subject to be characterized differently for federal income tax purposes at year-end.

### 3. INVESTMENTS

#### **Fair Value Measurement**

The following tables summarize the valuation of the Company's investments measured and reported at fair value under the fair value hierarchy levels described in Note 2 "Summary of Significant Accounting Policies" as of December 31, 2018:

Fair Value Measurement	Level I	Level II	Level III	Total
<b><u>Assets</u></b>				
CLO Debt	\$ -	\$ 42,137,841	\$ -	\$ 42,137,841
CLO Equity	-	-	\$ 364,270,948	\$ 364,270,948
Loan Accumulation Facilities	-	-	\$ 49,967,780	\$ 49,967,780
Total Assets at Fair Value	<u>\$ -</u>	<u>\$ 42,137,841</u>	<u>\$ 414,238,728</u>	<u>\$ 456,376,569</u>
<b><u>Liabilities at Fair Value Under the Fair Value Option</u></b>				
6.6875% Unsecured Notes Due 2028	<u>\$ 64,559,657</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 64,559,657</u>
Total Liabilities at Fair Value Under the Fair Value Option	<u>\$ 64,559,657</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 64,559,657</u>

CLO debt securities have been transferred from Level III to Level II in the fair value hierarchy as of December 31, 2018.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

The changes in investments classified as Level III are as follows for the year ended December 31, 2018:

**Change in Investments Classified as Level III**

	CLO Debt	CLO Equity	Loan Accumulation Facilities	Total
Beginning Balance at January 1, 2018	\$ 7,264,995	\$ 447,270,019	\$ 25,373,257	\$ 479,908,271
Purchases of investments	98,521,241	102,651,279 <sup>(1)</sup>	71,220,000	272,392,520
Proceeds from sales or maturity of investments	(58,812,198)	(101,071,742)	(46,855,264) <sup>(1)</sup>	(206,739,204)
Net (amortization) accretion of premiums or discounts on CLO debt securities	78,410	-	-	78,410
Net realized gains (losses) and net change in unrealized appreciation (depreciation)	(4,914,607)	(84,578,608)	229,787	(89,263,428)
Transfers out to Level II	(42,137,841)			(42,137,841)
Balance as of December 31, 2018	-	\$ 364,270,948	\$ 49,967,780	\$ 414,238,728
Change in unrealized appreciation (depreciation) on investments still held as of December 31, 2018	\$ -	\$ (91,360,195)	\$ 142,331	\$ (91,217,864)

(1) Reflects \$34,457,136 of proceeds from sales or maturity of investments in loan accumulation facilities transferred to purchases of investments in CLO Equity.

The net realized gains (losses) recorded for Level III investments are reported in the net realized gain (loss) on investments balance in the Consolidated Statement of Operations. Net changes in unrealized appreciation (depreciation) are reported in the net change in unrealized appreciation (depreciation) on investments balance in the Consolidated Statement of Operations.

The change in unrealized depreciation on investments still held as of December 31, 2018 was \$(91,217,864).

***Valuation of CLO Subordinated and Income Notes***

The Adviser gathers price indications from dealers, if available, as part of its valuation process as an input to estimate fair value of each CLO subordinated and income note investment. Dealer price indications are not firm bids and may not be representative of the actual value where trades can be consummated. In addition, the Adviser utilizes a third-party financial model as an input to estimate the fair value of CLO subordinated and income note investments. The model contains detailed information on the characteristics of each CLO, including recent information about assets and liabilities from data sources such as trustee reports, and is used to project future cash flows to the CLO note tranches, as well as management fees.

The following table summarizes the quantitative inputs and assumptions used for investments categorized in Level III of the fair value hierarchy as of December 31, 2018. In addition to the techniques and inputs noted in the table below, the Adviser may use other valuation techniques and methodologies when determining the Company's fair value measurements as provided for in the valuation policy approved by the Board. The table below is not intended to be all-inclusive, but rather provides information on the significant Level III inputs as they relate to the Company's fair value measurements as of December 31, 2018.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

**Quantitative Information about Level III Fair Value Measurements**

Assets	Fair Value as of December 31, 2018	Valuation Techniques/Methodologies	Unobservable Inputs	Range / Weighted Average
CLO Equity	\$ 364,270,948	Discounted Cash Flows	Constant Default Rate	0.00% - 2.00%
			Constant Prepayment Rate	25.00%
			Reinvestment Spread	2.75% - 3.90% / 3.38%
			Reinvestment Price	99.50%
			Reinvestment Floor <sup>(1)</sup>	1.00%
			Recovery Rate	69.05% - 70.00% / 69.84%
			Yield to Maturity	0.00% - 80.76% / 21.35%

(1) Assumed 1% reinvestment floor for 2 years after purchase of asset and 0% thereafter

Increases (decreases) in the constant default rate, reinvestment price and discount rate in isolation would result in a lower (higher) fair value measurement. Increases (decreases) in the reinvestment spread, reinvestment floor and recovery rate in isolation would result in a higher (lower) fair value measurement. Changes in the constant prepayment rate may result in a higher (lower) fair value, depending on the circumstances. Generally, a change in the assumption used for the constant default rate may be accompanied by a directionally opposite change in the assumption used for the constant prepayment rate and recovery rate.

The Adviser categorizes CLO subordinated and income notes as Level III investments. Certain pricing inputs may be unobservable. An active market may exist, but not necessarily for investments the Company holds as of the reporting date. Additionally, unadjusted dealer quotes, when obtained for valuation purposes, are indicative.

Certain of the Company's Level III investments have been valued using unadjusted inputs that have not been internally developed by the Adviser, including third-party transactions and indicative broker quotations. As a result, fair value assets of \$49,967,780 have been excluded from the preceding table.

***Valuation of CLO Debt***

The Company's investments in CLO debt have been valued using an independent pricing service. The valuation methodology of the independent pricing service includes incorporating data comprised of observable market transactions, executable bids, broker quotes from dealers with two sided markets, as well as transaction activity from comparable securities to those being valued. As the independent pricing service contemplates real time market data and no unobservable inputs or significant judgement has been used by the Adviser in the valuation of the Company's investment in CLO debt, such positions are considered Level II assets.

The Adviser has transferred the categorization of CLO debt from Level III investments to Level II investments in the fair value hierarchy due to the fact that pricing for debt instruments has become more observable.

***Valuation of Loan Accumulation Facilities***

Loan accumulation facilities are typically short- to medium-term in nature and are entered into in contemplation of a specific CLO investment. Unless the loan accumulation facility documents contemplate transferring the underlying loans at a price other than original cost plus accrued interest or the Adviser determines the originally contemplated CLO is unlikely to be consummated, the fair value of the loan accumulation facility is based on the cost of the underlying loans plus accrued interest and realized gains (losses) reported by the trustee. In all other situations, the fair value of the loan accumulation facility is based on the market value of the underlying loans plus accrued interest and realized gains (losses) reported by the trustee.

The Adviser categorizes loan accumulation facilities as Level III investments. There is no active market and prices are unobservable.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

***Valuation of Series 2028 Notes***

The Series 2028 Notes are considered Level I securities and are valued at their official closing price, taken from the NYSE.

**Investment Risk Factors and Concentration of Investments**

**Market Risk**

Certain events particular to each market in which the Company's investments conduct operations, as well as general economic and political conditions, may have a significant negative impact on the operations and profitability of the Company's investments and/or on the fair value of the Company's investments. Such events are beyond the Company's control, and the likelihood they may occur and the potential effect on the Company cannot be predicted.

**Concentration Risk**

The Company is classified as "non-diversified" under the 1940 Act. As a result, the Company can invest a greater portion of its assets in obligations of a single issuer than a "diversified" fund. The Company may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political or regulatory occurrence. In particular, because the Company's portfolio of investments may lack diversification among CLO securities and related investments, the Company is susceptible to a risk of significant loss if one or more of these CLO securities and related investments experience a high level of defaults on the collateral they hold.

**Liquidity Risk**

The securities issued by CLOs generally offer less liquidity than below investment grade or high-yield corporate debt, and are subject to certain transfer restrictions imposed on certain financial and other eligibility requirements on prospective transferees. Other investments the Company may purchase through privately negotiated transactions may also be illiquid or subject to legal restrictions on their transfer. As a result of this illiquidity, the Company's ability to sell certain investments quickly, or at all, in response to changes in economic and other conditions and to receive a fair price when selling such investments may be limited, which could prevent the Company from making sales to mitigate losses on such investments. In addition, CLOs are subject to the possibility of liquidation upon an event of default, which could result in full loss of value to the CLO equity and junior debt investors. CLO equity tranches are the most likely tranche to suffer a loss of all of their value in these circumstances.

**Risks of Investing in CLOs**

The Company's investments consist in part of CLO securities and the Company may invest in other related structured finance securities. CLOs and structured finance securities are generally backed by an asset or a pool of assets (typically senior secured loans and other credit-related assets in the case of a CLO) which serve as collateral. The Company and other investors in CLO and structured finance securities ultimately bear the credit risk of the underlying collateral. If there are defaults or the relevant collateral otherwise underperforms, scheduled payments to senior tranches of such securities take precedence over those of mezzanine tranches, and scheduled payments to mezzanine tranches take precedence over those to subordinated/equity tranches. Therefore, CLO and other structured finance securities may present risks similar to those of the other types of debt obligations and, in fact, such risks may be of greater significance in the case of CLO and other structured finance securities. In addition to the general risks associated with investing in debt securities, CLO securities carry additional risks, including, but not limited to: (1) the possibility that distributions from collateral assets will not be adequate to make interest or other payments; (2) the quality of the collateral may decline in value or default; (3) the fact that investments in CLO equity and junior debt tranches will likely be subordinate to other senior classes of CLO debt; and (4) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results. Additionally, changes in the collateral held by a CLO may cause payments on the instruments the Company holds to be reduced, either temporarily or permanently. Structured investments, particularly the subordinated interests in which the Company invests, are less liquid than many other types of securities and may be more volatile than the assets underlying the CLOs the Company may target. In

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

addition, CLO and other structured finance securities may be subject to prepayment risk.

**Prepayment Risk**

Although the Adviser's valuations and projections take into account certain expected levels of prepayments, the collateral of a CLO may be prepaid more quickly than expected. Prepayment rates are influenced by changes in interest rates and a variety of factors beyond the Company's control and consequently cannot be accurately predicted. Early prepayments give rise to increased reinvestment risk, as a CLO collateral manager might realize excess cash from prepayments earlier than expected. If a CLO collateral manager is unable to reinvest such cash in a new investment with an expected rate of return at least equal to that of the investment repaid, this may reduce the Company's net income and the fair value of that asset. In addition, in most CLO transactions, CLO equity investors, such as the Company, are subject to prepayment risk in that the holders of a majority of the equity tranche can direct a call or refinancing of a CLO, which would cause such CLO's outstanding CLO equity securities to be repaid at par. Such prepayments of CLO equity securities held by the Company can also give rise to reinvestment risk if we are unable to reinvest such cash in a new investment with an expected rate of return at least equal to that of the investment repaid.

**Risks of Investing in Loan Accumulation Facilities**

The Company invests in loan accumulation facilities, which are short- to medium-term facilities often provided by the bank that will serve as placement agent or arranger on a CLO transaction and which acquire loans on an interim basis which are expected to form part of the portfolio of a future CLO. Investments in loan accumulation facilities have risks similar to those applicable to investments in CLOs. In addition, there typically will be no assurance future CLOs will be consummated or that loans held in such a facility are eligible for purchase by the CLO. Furthermore, the Company likely will have no consent rights in respect of the loans to be acquired in such a facility and in the event the Company does have any consent rights, they will be limited. In the event a planned CLO is not consummated, or the loans are not eligible for purchase by the CLO, the Company may be responsible for either holding or disposing of the loans. This could expose the Company primarily to credit and/or mark-to-market losses, and other risks. Leverage is typically utilized in such a facility and as such the potential risk of loss will be increased for such facilities employing leverage.

**Interest Rate Risk**

The fair value of certain investments held by the Company may be significantly affected by changes in interest rates. Although senior secured loans are generally floating rate instruments, the Company's investments in senior secured loans through CLOs are sensitive to interest rate levels and volatility. Although CLOs are generally structured to mitigate the risk of interest rate mismatch, there may be some difference between the timing of interest rate resets on the assets and liabilities of a CLO. Such a mismatch could have a negative effect on the amount of funds distributed to CLO equity investors. In addition, CLOs may not be able to enter into hedge agreements, even if it may otherwise be in the best interests of the CLO to hedge such interest rate risk. Furthermore, in the event of a significant rising interest rate environment and/or economic downturn, loan defaults may increase and result in credit losses which may adversely affect the Company's cash flow, fair value of its assets and operating results. In the event the Company's interest expense was to increase relative to income, or sufficient financing became unavailable, return on investments and cash available for distribution would be reduced. In addition, future investments in different types of instruments may carry a greater exposure to interest rate risk.

**LIBOR Floor Risk**

Because CLOs generally issue debt on a floating rate basis, an increase in LIBOR will increase the financing costs of CLOs. Many of the senior secured loans held by these CLOs have LIBOR floors such that, when LIBOR is below the stated LIBOR floor, the stated LIBOR floor (rather than LIBOR itself) is used to determine the interest payable under the loans. Therefore, if LIBOR increases but stays below the average LIBOR floor rate of the senior secured loans held by a CLO, there would not be a corresponding increase in the investment income of such CLOs. The combination of increased financing costs without a corresponding increase in investment income in such a scenario would result in smaller distributions to equity holders of a CLO. As of the date of the consolidated financial statements, due to recent increases in interest rates, LIBOR has increased above the LIBOR floor set for

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

many senior secured loans and, as such, as of the date of the consolidated financial statements, LIBOR is above the weighted average floor of generally all the senior secured loans held by the CLOs in which the Company invests.

**LIBOR Risk**

The CLOs in which the Company invests typically obtain financing at a floating rate based on LIBOR. Regulators and law enforcement agencies from a number of governments, including entities in the United States, Japan, Canada and the United Kingdom, have conducted or are conducting civil and criminal investigations into whether the banks that contributed to the British Bankers' Association, or the "BBA," in connection with the calculation of daily LIBOR may have been under-reporting or otherwise manipulating or attempting to manipulate LIBOR. Several financial institutions have reached settlements with the Commodity Futures Trading Commission, the U.S. Department of Justice and the United Kingdom Financial Conduct Authority, or "FCA," in connection with investigations by such authorities into submissions made by such financial institutions to the bodies that set LIBOR and other interbank offered rates. In such settlements, such financial institutions admitted to submitting rates to the BBA that were lower than the actual rates at which such financial institutions could borrow funds from other banks. Additional investigations remain ongoing with respect to other major banks. There can be no assurance that there will not be additional admissions or findings of rate-setting manipulation or that manipulations of LIBOR or other similar interbank offered rates will not be shown to have occurred. On July 9, 2013, it was announced that the NYSE Euronext Rate Administration Limited would take over the administration of LIBOR from the BBA, subject to authorization from the Financial Conduct Authority and following a period of transition. Accordingly, ICE Benchmark Administration Limited (formerly NYSE Euronext Rate Administration Limited) assumed this role on February 1, 2014. Any new administrator of LIBOR may make methodological changes to the way in which LIBOR is calculated or may alter, discontinue, or suspend calculation or dissemination of LIBOR. Any of such actions or other effects from the ongoing investigations could adversely affect the liquidity and value of the Company's investments. Further, additional admissions or findings of manipulation may decrease the confidence of the market in LIBOR and lead market participants to look for alternative, non-LIBOR based types of financing, such as fixed rate loans or bonds or floating rate loans based on non-LIBOR indices. An increase in alternative types of financing at the expense of LIBOR-based CLOs may impair the liquidity of the Company's investments. Additionally, it may make it more difficult for CLO issuers to satisfy certain conditions set forth in a CLO's offering documents.

On July 27, 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of LIBOR rates after 2021 (the "FCA Announcement"). The FCA Announcement indicates that the continuation of LIBOR on the current basis (or at all) cannot and will not be guaranteed after 2021 and that planning a transition to alternative reference rates that are based firmly on transactions, such as reformed Sterling Over Night Index Average ("SONIA") must begin. Furthermore, in the United States, efforts to identify a set of alternative U.S. dollar reference interest rates include proposals by the Alternative Reference Rates Committee ("ARRC") of the Federal Reserve Board and the Federal Reserve Bank of New York. On June 22, 2017, the ARRC identified the Secured Overnight Financing Rate ("SOFR"), a broad U.S. treasuries repo financing rate to be published by the Federal Reserve Bank of New York, as the rate that, in the consensus view of the ARRC, represented best practice for use in certain new U.S. dollar derivatives and other financial contracts. The first publication of SOFR was released in April 2018. Although there have been a few issuances utilizing SONIA and SOFR, it remains in question whether or not these alternative reference rates will attain market acceptance as replacements for LIBOR.

At this time, it is not possible to predict the effect of the FCA Announcement, the Federal Reserve Board Notice, or other regulatory changes or announcements, any establishment of alternative reference rates or any other reforms to LIBOR that may be enacted in the United Kingdom, the United States or elsewhere. As such, the potential effect of any such event on our net investment income cannot yet be determined. The CLOs in which the Company is invested generally contemplate a scenario where LIBOR is no longer available by requiring the CLO administrator to calculate a replacement rate primarily through dealer polling on the applicable measurement date. However, there is uncertainty regarding the effectiveness of the dealer polling processes, including the willingness of banks to provide such quotations, which could adversely impact our net investment income. In addition, the

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

effect of a phase out of LIBOR on U.S. senior secured loans, the underlying assets of the CLOs in which we invest, is currently unclear. To the extent that any replacement rate utilized for senior secured loans differs from that utilized for a CLO that holds those loans, the CLO would experience an interest rate mismatch between its assets and liabilities which could have an adverse impact on the Company's net investment income and portfolio returns.

**LIBOR Mismatch Risk**

Many underlying corporate borrowers can elect to pay interest based on 1-month LIBOR, 3-month LIBOR and/or other rates in respect of the loans held by CLOs in which the Company is invested, in each case plus an applicable spread, whereas CLOs generally pay interest to holders of the CLO's debt tranches based on 3-month LIBOR plus a spread. If 3-month LIBOR were to exceed 1-month LIBOR by a significant amount, this may result in many underlying corporate borrowers electing to pay interest based on 1-month LIBOR. This mismatch in the rate at which CLOs earn interest and the rate at which they pay interest on their debt tranches negatively impacts the cash flows on a CLO's equity tranche, which may in turn adversely affect the Company's cash flows and results of operations. Unless spreads are adjusted to account for such increases, these negative impacts may worsen as the amount by which the 3-month LIBOR exceeds the 1-month LIBOR increases.

**Low Interest Rate Environment**

As of the date of the consolidated financial statements, despite recent increases in interest rates from near historically low levels, interest rates in the United States remain relatively low, which may increase the Company's exposure to risks associated with rising interest rates. Moreover, interest rate levels are currently impacted by extraordinary monetary policy initiatives, the effect of which is impossible to predict with certainty. The senior secured loans underlying the CLOs in which the Company invests typically have floating interest rates. A rising interest rate environment may increase loan defaults, resulting in losses for the CLOs in which the Company invests. In addition, increasing interest rates may lead to higher prepayment rates, as corporate borrowers look to avoid escalating interest payments or refinance floating rate loans. Further, a general rise in interest rates will increase the financing costs of the CLOs. However, since many of the senior secured loans within these CLOs have LIBOR floors, if LIBOR is below the average LIBOR floor, there may not be corresponding increases in investment income resulting in smaller distributions to equity investors in these CLOs. Given the structure of the Company's investment advisory agreement with the Adviser, a general increase in interest rates will likely have the effect of making it easier for the Adviser to meet the quarterly hurdle rate for payment of income incentive fees under the agreement without any additional increase in relative performance on the part of the Adviser.

**Leverage Risk**

The Company has incurred leverage through the issuances of the Preferred Stock and the Unsecured Notes, and the Company may incur additional leverage, directly or indirectly, through one or more special purpose vehicles, including indebtedness for borrowed money and leverage in the form of derivative transactions, additional shares of preferred stock and other structures and instruments, in significant amounts and on terms the Adviser and the Board deem appropriate, subject to applicable limitations under the 1940 Act. Such leverage may be used for the acquisition and financing of the Company's investments, to pay fees and expenses and for other purposes. Any such leverage does not include embedded or inherent leverage in CLO structures in which the Company invests or in derivative instruments in which the Company may invest. Accordingly, there may be a layering of leverage in overall structure. The more leverage is employed, the more likely a substantial change will occur in the Company's net asset value ("NAV"). For instance, any decrease in the Company's income would cause net income to decline more sharply than it would have had the Company not borrowed. Such a decline could also negatively affect the Company's ability to make distributions. Leverage is generally considered a speculative investment technique. The Company's ability to service any debt that it incurs will depend largely on its financial performance and will be subject to prevailing economic conditions and competitive pressures. Accordingly, any event adversely affecting the value of an investment would be magnified to the extent leverage is utilized. In addition, any debt facility into which the Company may enter would likely impose financial and operating covenants that restrict its business activities, including limitations that could hinder the Company's ability to finance additional loans and investments or make distributions.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

**Highly Subordinated and Leveraged Securities Risk**

The Company's portfolio includes equity and junior debt investments in CLOs, which involve a number of significant risks. CLO equity and junior debt securities are typically very highly leveraged (with CLO equity securities typically being leveraged nine to thirteen times), and therefore the junior debt and equity tranches in which the Company is currently invested are subject to a higher degree of risk of total loss. In particular, investors in CLO securities indirectly bear risks of the collateral held by such CLOs. The Company generally has the right to receive payments only from the CLOs, and generally does not have direct rights against the underlying borrowers or the entity that sponsored the CLO. While the CLOs the Company targets generally enable the investor to acquire interests in a pool of senior secured loans without the expenses associated with directly holding the same investments, the Company generally pays a proportionate share of the CLOs' administrative, management and other expenses. In addition, the Company may have the option in certain CLOs to contribute additional amounts to the CLO issuer for purposes of acquiring additional assets or curing coverage tests, thereby increasing overall exposure and capital at risk to such CLO. Although it is difficult to predict whether the prices of assets underlying a CLO will rise or fall, these prices (and, therefore, the prices of the CLO securities) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. The interests the Company acquires in CLOs generally are thinly traded or have only a limited trading market. CLO securities are typically privately offered and sold, even in the secondary market. As a result, investments in CLO securities are illiquid securities.

**Credit Risk**

If a CLO in which the Company invests, an underlying asset of any such CLO or any other type of credit investment in the Company's portfolio declines in price or fails to pay interest or principal when due because the issuer or debtor, as the case may be, experiences a decline in its financial status either or both the Company's income and NAV may be adversely impacted. Non-payment would result in a reduction of the Company's income, a reduction in the value of the applicable CLO security or other credit investment experiencing non-payment and, potentially, a decrease in the Company's NAV. With respect to investments in CLO securities and credit investments that are secured, there can be no assurance that any liquidation of collateral would satisfy the issuer's obligation in the event of non-payment for scheduled dividends, interest or principal. Also, there can be no assurance that any such collateral could be readily liquidated. In the event of bankruptcy of an issuer, the Company could experience delays or limitations with respect to its ability to realize the benefits of any collateral securing a CLO security or credit investment. To the extent the credit rating assigned to a security in the Company's portfolio is downgraded, the market price and liquidity of such security may be adversely affected. In addition, if a CLO triggers an event of default as a result of failing to make payments when due or for other reasons, the CLO would be subject to the possibility of liquidation, which could result in full loss of value to the CLO equity and junior debt investors. CLO equity tranches are the most likely tranche to suffer a loss of all of their value in these circumstances.

**4. RELATED PARTY TRANSACTIONS**

**Investment Adviser**

On June 6, 2014, the Company entered into an investment advisory agreement with the Adviser, which was amended and restated on May 16, 2017 (the "Advisory Agreement"). Pursuant to the terms of the Advisory Agreement, the Company pays the Adviser a management fee and an incentive fee for its services.

The management fee is calculated and payable quarterly, in arrears, at an annual rate equal to 1.75% of the Company's "total equity base." "Total equity base" means the net asset value attributable to the common stock and the paid-in, or stated, capital of the Preferred Stock. The management fee is calculated based on the "total equity base" at the end of the most recently completed calendar quarter end, and, with respect to any common stock or preferred stock issued or repurchased during such quarter, is adjusted to reflect the number of days during such quarter that such common stock and/or preferred stock, if any, was outstanding. The management fee for any partial quarter is pro-rated (based on the number of days actually elapsed at the end of such partial quarter relative to the total number of days in such calendar quarter). The Company was charged management fees of \$7,583,462 for the year ended December 31, 2018, \$1,674,803 of which was payable as of December 31, 2018.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

The incentive fee is calculated and payable quarterly, in arrears, based on the pre-incentive fee net investment income (the “PNII”) of the Company for the immediately preceding calendar quarter. For this purpose, PNII means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence and consulting fees or other fees the Company receives from an investment) accrued during the calendar quarter, minus the Company’s operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement (as defined below) and any interest expense and distributions paid on any issued and outstanding preferred stock or debt, but excluding the incentive fee). PNII includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with payment in-kind interest and zero coupon securities), accrued income that the Company has not yet received in cash. PNII does not include any realized or unrealized capital gains or realized or unrealized capital losses. The portion of incentive fee that is attributable to deferred interest (such as payment-in-kind interest or original issue discount) will be paid to the Adviser, without interest, only if and to the extent the Company actually receives such deferred interest in cash, and any accrual thereof will be reversed if and to the extent such interest is reversed in connection with any write-off or similar treatment of the investment giving rise to any deferred interest accrual.

PNII, expressed as a rate of return on the value of the Company’s net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle rate of 2.00% per quarter. The Company pays the Adviser an incentive fee with respect to the Company’s PNII in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which the Company’s PNII does not exceed the hurdle rate of 2.00%; (2) 100% of the Company’s PNII with respect to that portion of such PNII, if any, exceeding the hurdle rate but equal to or less than 2.50% in any calendar quarter; and (3) 20% of the amount of the Company’s PNII, if any, exceeding 2.50% in any calendar quarter. The Company incurred incentive fees of \$7,357,640 for the year ended December 31, 2018, \$2,918,780 of which was payable as of December 31, 2018. For the year ended December 31, 2018, the Adviser has voluntarily waived a portion of the incentive fee in the amount of \$323,607.

For the year ended December 31, 2018, following a routine examination of the Adviser by the SEC staff, the Adviser made a repayment to the Company of a portion of the management and incentive fees paid by the Company to the Adviser for its services, and interest on such amounts, for the period from May 5, 2015 through June 30, 2018 by paying the Company \$26,520 on June 13, 2018 and \$1,368,011 on July 27, 2018 for a total of \$1,394,531. The repayment of \$1,394,531 was reflected as a paid-in capital contribution for the year ended December 31, 2018. Additionally, the incentive fee payable to the Adviser for the year ended December 31, 2018 was partially reduced by \$564,242 which would have otherwise been recognized through December 31, 2018.

**Administrator**

Effective June 6, 2014, the Company entered into an administration agreement (the “Administration Agreement”) with the Administrator, an affiliate of the Adviser. Pursuant to the Administration Agreement, the Administrator performs, or arranges for the performance of, the Company’s required administrative services, which include being responsible for the financial records which the Company is required to maintain and preparing reports which are disseminated to the Company’s stockholders. In addition, the Administrator provides the Company with accounting services, assists the Company in determining and publishing its net asset value, oversees the preparation and filing of the Company’s tax returns, monitors the Company’s compliance with tax laws and regulations, and prepares and assists the Company with any audits by an independent public accounting firm of the consolidated financial statements. The Administrator is also responsible for printing and disseminating reports to the Company’s stockholders and maintaining the Company’s website, providing support to investor relations, generally overseeing the payment of the Company’s expenses and the performance of administrative and professional services rendered to the Company by others, and providing such other administrative services as the Company may from time to time designate.

Payments under the Administration Agreement are equal to an amount based upon the Company’s allocable portion of the Administrator’s overhead in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and the Company’s

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

allocable portion of the compensation of the Company's chief compliance officer, chief financial officer, chief operating officer and the Company's allocable portion of the compensation of any related support staff. The Company's allocable portion of such compensation is based on an allocation of the time spent on the Company relative to other matters. To the extent the Administrator outsources any of its functions, the Company pays the fees on a direct basis, without profit to the Administrator. Certain accounting and other administrative services have been delegated by the Administrator to SS&C Technologies, Inc. ("SS&C"). The Administration Agreement may be terminated by the Company without penalty upon not less than sixty days' written notice to the Administrator and by the Administrator upon not less than ninety days' written notice to the Company. The Administration Agreement is approved by the Board, including by a majority of the Company's independent directors, on an annual basis.

For the year ended December 31, 2018, the Company was charged a total of \$1,049,217 in administration fees consisting of \$801,135 and \$248,082, relating to services provided by the Administrator and SS&C, respectively, which are included in the Consolidated Statement of Operations and, of which \$250,568 was payable as of December 31, 2018.

**Affiliated Ownership**

As of December 31, 2018, the Adviser and senior investment team held an aggregate of 6.8% of the Company's common stock, 0.5% of the Series A Term Preferred Stock and 0.01% of the Series A Term Preferred Stock. This represented 5.9% of the total outstanding voting stock of the Company as of December 31, 2018. Additionally, certain officers of the Company hold 0.2% of the Series 2028 Notes as of December 31, 2018. Officers of the Company did not hold any of the Series 2027 Notes as of December 31, 2018.

**Exemptive Relief**

On March 17, 2015, the SEC issued an order granting the Company exemptive relief to co-invest in certain negotiated investments with affiliated investment funds managed by the Adviser, subject to certain conditions.

**5. COMMON STOCK**

As of December 31, 2017, there were 100,000,000 shares of common stock authorized, of which 18,798,815 shares were issued and outstanding.

On January 22, 2018, the Company closed a follow-on, underwritten, public offering of 1,950,000 shares of its common stock at \$18.25 per share, resulting in net proceeds to the Company of approximately \$33.7 million after payment of underwriting discounts and commissions, structuring fees and offering expenses. In addition, the underwriters fully exercised the over-allotment option granted to them in connection with the offering, and purchased an additional 292,500 shares of the Company's common stock, resulting in additional net proceeds to the Company of approximately \$5.1 million after payment of underwriting discounts and commissions, and structuring fees.

Underwriting discounts and commissions, structuring fees and offering expenses associated with the Company's issuances of its common stock were borne by all common stockholders of the Company as a charge to stockholders' equity.

On July 14, 2017, the Company launched an "at-the-market" offering to sell up to \$50,000,000 aggregate amount of its common stock, pursuant to a prospectus supplement filed with the SEC on June 29, 2017 and additional supplements thereafter.

On November 30, 2018, the Company launched a new "at-the-market" offering to sell up to \$100,000,000 aggregate amount of its common stock, pursuant to a prospectus supplement filed with the SEC on November 30, 2018.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

For the year ended December 31, 2018, the Company sold 2,099,400 shares of its common stock, pursuant to the “at-the-market” offerings for total net proceeds to the Company of approximately \$37.1 million, after payment of underwriting discounts and commissions of approximately \$0.8 million and offering expenses of approximately \$0.1 million.

For the year ended December 31, 2018, 12,604 shares of common stock were issued in connection with the DRIP for total net proceeds to the Company of approximately \$0.2 million.

As of December 31, 2018, there were 100,000,000 shares of common stock authorized, of which 23,153,319 shares were issued and outstanding.

## **6. MANDATORILY REDEEMABLE PREFERRED STOCK**

As of December 31, 2017, there were 20,000,000 shares of preferred stock authorized, par value \$0.001 per share, of which 1,818,000 shares of Series A Term Preferred Stock were issued and outstanding, and 1,867,584 shares of Series B Term Preferred Stock were issued and outstanding.

On November 30, 2018 the Company launched a new “at-the-market” offering to sell up to 1,000,000 shares of Series B Term Preferred Stock with an aggregate liquidation preference of \$25,000,000, pursuant to a prospectus supplement filed with the SEC on November 30, 2018.

For the year ended December 31, 2018, the Company sold 17,142 shares of its Series B Term Preferred Stock, pursuant to the “at-the-market” offering for total net proceeds to the Company of approximately \$0.4 million, after payment of underwriting discounts and commissions.

The Company is required to redeem all outstanding shares of the Series A Term Preferred Stock on June 30, 2022, at a redemption price of \$25 per share (the “Series A Liquidation Preference”), plus accumulated but unpaid dividends, if any. At any time after June 29, 2018, the Company may, at its sole option, redeem the outstanding shares of the Series A Term Preferred Stock.

The Company is required to redeem all outstanding shares of the Series B Term Preferred Stock on October 30, 2026, at a redemption price of \$25 per share (the “Series B Liquidation Preference”), plus accumulated but unpaid dividends, if any. At any time after October 29, 2021, the Company may, at its sole option, redeem the outstanding shares of the Series B Term Preferred Stock.

Except where otherwise stated in the 1940 Act or the Company’s certification of incorporation, each holder of Preferred Stock will be entitled to one vote for each share of preferred stock held on each matter submitted to a vote of the Company’s stockholders. The Company’s preferred stockholders and common stockholders will vote together as a single class on all matters submitted to the Company’s stockholders. Additionally, the Company’s preferred stockholders will have the right to elect two Preferred Directors at all times, while the Company’s preferred stockholders and common stockholders, voting together as a single class, will elect the remaining members of the Board.

As of December 31, 2018 there were 20,000,000 shares of preferred stock authorized, par value \$0.001 per share, of which 1,818,000 shares of Series A Term Preferred Stock were issued and outstanding, and 1,884,726 shares of Series B Term Preferred Stock were issued and outstanding.

See Note 8 “Asset Coverage” for further discussion on the Company’s calculation of asset coverage with respect to its Preferred Stock.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

**7. UNSECURED NOTES**

As of December 31, 2017, there was \$59,998,750 in aggregate principal amount of Series 2020 Notes and 31,625,000 in aggregate principal amount of Series 2027 Notes issued and outstanding.

The Series 2027 Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

The Series 2027 Notes will mature on September 30, 2027 and 100% of the aggregate principal amount will be paid at maturity. The Company may redeem the Series 2027 Notes in whole or in part at any time or from time to time at the Company's option, on or after September 30, 2020.

On April 24, 2018, the Company closed an underwritten public offering of \$66.0 million in aggregate principal amount of its Series 2028 Notes (including \$6.0 million in aggregate principal amount of the Series 2028 Notes issued pursuant to the underwriters' partial exercise of their overallotment option granted to them in connection with the offering), resulting in net proceeds to the Company of approximately \$63.7 million after payment of underwriting discounts, commissions and estimated offering expenses.

Subsequently, on May 15, 2018, the underwriters purchased an additional \$1.3 million in aggregate principal amount of the Series 2028 Notes pursuant to the underwriters' overallotment option, which resulted in additional net proceeds to the Company of approximately \$1.2 million after payment of underwriting discounts.

The Series 2028 Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

The Series 2028 Notes will mature on April 30, 2028 and 100% of the aggregate principal amount will be paid at maturity. The Company may redeem the Series 2028 Notes in whole or in part at any time or from time to time at the Company's option, on or after April 30, 2021.

The Company has accounted for its Series 2028 Notes utilizing the FVO under ASC 825. Accordingly, the Series 2028 Notes are measured at fair value under the FVO. For the year ended December 31, 2018 there were issuance costs in the aggregate amount of \$2,384,731, which consisted of \$2,102,427 of underwriting commissions, \$268,738 of professional fees and \$13,566 of other expenses. The issuance costs were recognized in earnings for the year ended December 31, 2018, the period in which such costs were incurred.

The estimated change in fair value of the Series 2028 Notes attributable to market risk is \$1,250,940, which is recorded as unrealized appreciation on liabilities at fair value under the fair value option on the Consolidated Statement of Operations.

The estimated change in fair value of the Series 2028 Notes attributable to instrument-specific credit risk is \$1,467,079 which is recorded in other comprehensive income on the Consolidated Statement of Comprehensive Income. The Company defines the change in fair value attributable to instrument-specific credit risk as the excess of the total change in fair value over the change in fair value attributable to changes in a base market rate, such as the 10-Year Markit CDX North America Investment Grade Index.

On May 24, 2018, the Company redeemed the total aggregate principal amount of \$59,998,750 related to the issued and outstanding Series 2020 Notes at a redemption price of \$25 per Series 2020 Note plus accrued and unpaid interest through May 23, 2018. Upon redemption of the Series 2020 Notes, the Company accelerated \$1,539,914 of unamortized deferred issuance costs into net realized loss on extinguishment of debt in the Consolidated Statement of Operations.

As of December 31, 2018, there was \$31,625,000 in aggregate principal amount of Series 2027 Notes and \$67,277,675 in aggregate principal amount of Series 2028 Notes issued and outstanding.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

See Note 8 “Asset Coverage” for further discussion on the Company’s calculation of asset coverage with respect to its Unsecured Notes.

**8. ASSET COVERAGE**

Under the provisions of the 1940 Act, the Company is permitted to issue senior securities, including debt securities and preferred stock, and borrow from banks or other financial institutions, provided that the Company satisfies certain asset coverage requirements.

With respect to senior securities that are stocks, such as the Preferred Stock, the Company is required to have asset coverage of at least 200%, as measured at the time of the issuance of any such senior securities that are stocks and calculated as the ratio of the Company’s total consolidated assets, less all liabilities and indebtedness not represented by senior securities, over the aggregate amount of the Company’s outstanding senior securities representing indebtedness plus the aggregate liquidation preference of any outstanding shares of senior securities that are stocks.

With respect to senior securities representing indebtedness, such as the Unsecured Notes or any bank borrowings (other than temporary borrowings as defined under the 1940 Act), the Company is required to have asset coverage of at least 300%, as measured at the time of borrowing and calculated as the ratio of the Company’s total consolidated assets, less all liabilities and indebtedness not represented by senior securities, over the aggregate amount of the Company’s outstanding senior securities representing indebtedness.

If the Company’s asset coverage declines below 300% (or 200%, as applicable), the Company would be prohibited under the 1940 Act from incurring additional debt or issuing additional preferred stock and from making certain distributions to its stockholders. In addition, the terms of the Preferred Stock and the Unsecured Notes require the Company to redeem shares of the Preferred Stock and/or a certain principal amount of the Unsecured Notes, if such failure to maintain the applicable asset coverage is not cured by a certain date.

The following table summarizes the Company’s asset coverage with respect to its Preferred Stock and Unsecured Notes, as of December 31, 2018, and as of December 31, 2017:

**Asset Coverage of Preferred Stock and Debt Securities**

	As of December 31, 2018	As of December 31, 2017
Total assets	\$ 476,714,466	\$ 512,965,237
Less liabilities and indebtedness not represented by senior securities	(5,321,574)	(20,736,503)
Net total assets and liabilities	471,392,892	492,228,734
Preferred Stock	92,568,150	92,139,600
Unsecured Notes	98,902,675	91,623,750
	191,470,825	183,763,350
Asset coverage of preferred stock <sup>(1)</sup>	246%	268%
Asset coverage of debt securities <sup>(2)</sup>	477%	537%

(1) The asset coverage of preferred stock is calculated in accordance with section 18(h) of the 1940 Act, as generally described above.

(2) The asset coverage ratio of debt securities is calculated in accordance with section 18(h) of the 1940 Act, as generally described above.

Information about the Company’s senior securities shown in the following table has been derived from the Company’s consolidated financial statements as of and for the dates noted. The Company had no senior securities outstanding as of December 31, 2014.

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

Class	Total Amount Outstanding Exclusive of Treasury Securities	Asset Coverage Per Unit <sup>(1)</sup>	Involuntary Liquidating Preference Per Unit <sup>(2)</sup>	Average Market Value Per Unit <sup>(3)</sup>
<b>For the year ended December 31, 2018</b>				
Preferred Stock	\$92,568,150	\$61.55	\$25	\$25.78
Unsecured Notes	\$98,902,675	\$4,766.23	N/A	\$25.08
<b>For the year ended December 31, 2017</b>				
Preferred Stock	\$92,139,600	\$66.97	\$25	\$25.75
Unsecured Notes	\$91,623,750	\$5,372.28	N/A	\$25.96
<b>For the year ended December 31, 2016</b>				
Preferred Stock	\$91,450,000	\$71.53	\$25	\$25.41
Series 2020 Notes	\$59,998,750	\$7,221.89	N/A	\$25.29
<b>For the year ended December 31, 2015</b>				
Series A Term Preferred Stock	\$45,450,000	\$91.16	\$25	\$25.43
Series 2020 Notes	\$25,000,000	\$10,275.46	N/A	\$24.52

- (1) The asset coverage per unit figure is the ratio of the Company's total consolidated assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate dollar amount of outstanding applicable senior securities, as calculated separately for each of the Preferred Stock (prior to 2016, the Series A Term Preferred Stock only) and the Unsecured Notes in accordance with section 18(h) of the 1940 Act. With respect to the Preferred Stock, the asset coverage per unit figure is expressed in terms of dollar amounts per share of outstanding preferred stock (based on a per share liquidation preference of \$25.) With respect to the Unsecured Notes, the asset coverage per unit figure is expressed in terms of dollar amounts per \$1,000 principal amount of such notes.
- (2) The involuntary liquidating preference per unit is the amount to which a share of Preferred Stock would be entitled in preference to any security junior to it upon our involuntary liquidation.
- (3) The average market value per unit is calculated by taking the average of the closing price of each of (a) a share of the Preferred Stock (NYSE: ECCA, ECCB) (prior to 2016, the Series A Term Preferred Stock only) and (b) \$25 principal amount of the Unsecured Notes (NYSE: ECCX, ECCY, ECCZ) for each day during the year ended December 31, 2018 (ECCX new issuance included as of April 30, 2018; ECCZ included through date of full redemption on May 22, 2018) and for the years ended December 31, 2017, December 31, 2016 and December 31, 2015, for which the applicable security was listed on the NYSE.

## 9. COMMITMENTS AND CONTINGENCIES

The Company is not currently subject to any material legal proceedings. From time to time, the Company may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Company's rights under contracts. While the outcome of these legal proceedings cannot be predicted with certainty, the Company does not expect these proceedings will have a material effect upon its financial condition or results of operations.

As of December 31, 2018, the Company had no unfunded commitments.

## 10. INDEMNIFICATIONS

Under the Company's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, during the normal course of business, the Company enters into contracts containing a variety of representations which provide general indemnifications. The Company's maximum exposure under these agreements cannot be known; however, the Company expects any risk of loss to be remote.

## 11. RECENT ACCOUNTING AND TAX PRONOUNCEMENTS

In August 2018, the SEC adopted amendments to Regulation S-X to update and simplify the disclosure requirements for registered investment companies by eliminating requirements that are redundant or duplicative of US GAAP requirements or other SEC disclosure requirements. The new amendments require the presentation of the total, rather than the components, of distributable earnings on the Consolidated Statement of Assets and Liabilities and the total, rather than the components, of common stock distributions from net investment income and common stock distributions from net realized gains on the Consolidated Statements of Changes in Net

Eagle Point Credit Company Inc. & Subsidiaries  
**Notes to Consolidated Financial Statements**  
December 31, 2018

Assets. The amendments also removed the requirement for the parenthetical disclosure of undistributed net investment income on the Consolidated Statement of Changes in Net Assets. All changes have been reflected in the Company's financial statements.

In August 2018, FASB issued Accounting Standards Update No. 2018-13 (“ASU 2018-13”) related to FASB ASC Topic 820 *Fair Value Measurement and Disclosures*— Changes to the Disclosure Requirements for Fair Value Measurement. ASU 2018-13 eliminates, amends, and adds to the fair value measurement disclosure requirements of ASC Topic 820. The amendments are designed to provide more decision useful information to financial statement users. ASU 2018-13 is effective for interim and annual reporting periods beginning after December 15, 2019. The Company is currently evaluating the impact, if any, of applying this provision.

## **12. SUBSEQUENT EVENTS**

On January 2, 2019, the Company declared three separate distributions of \$0.20 per share on its common stock. The first distribution of \$4,630,664 or \$0.20 per share was paid on January 31, 2019 to holders of record as of January 14, 2019. The additional distributions are payable on each of February 28, 2019 and March 29, 2019 to holders of record as of February 12, 2019 and March 12, 2019, respectively.

On January 2, 2019, the Company declared three separate distributions of \$0.161459 per share on its Series A Term Preferred Stock and three separate distributions of \$0.161459 per share on its Series B Term Preferred Stock. The first distributions were paid on January 31, 2019 to holders of record as of January 14, 2019. The additional distributions are payable on each of February 28, 2019 and March 29, 2019 to holders of record as of February 12, 2019 and March 12, 2019, respectively.

Management of the Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date of release of this report. Management has determined there are no events in addition to those described above which would require adjustment to or disclosure in the consolidated financial statements and related notes through the date of release of this report.

Eagle Point Credit Company Inc. & Subsidiaries  
**Financial Highlights**

**Footnotes to the Financial Highlights:**

- (1) Per share distributions paid to preferred stockholders and the aggregate amount of amortized deferred issuance costs associated with the Preferred Stock are reflected in net investment income, and totaled (\$0.33) and (\$0.02) per share of common stock, respectively, for the year ended December 31, 2018, (\$0.40) and (\$0.02) per share of common stock, respectively, for the year ended December 31, 2017, (\$0.28) and (\$0.02) per share of common stock, respectively, for the year ended December 31, 2016 and (\$0.16) and (\$0.01) per share of common stock, respectively, for the year ended December 31, 2015.
- (2) Per share amounts are based on weighted average of shares of common stock outstanding for the period.
- (3) Net realized gain (loss) and change in unrealized appreciation (depreciation) on investments includes a rounding adjustment to reconcile to the change in net asset value at the end of the period.
- (4) The information provided is based on estimates available at each respective fiscal year end. The final tax components of the Company's earnings cannot be determined until tax returns are filed after the end of the fiscal year and may vary from these estimates.
- (5) Common stock distributions from net investment income were previously reported on a U.S. GAAP basis for the years ended December 31, 2017, December 31, 2016, December 31, 2015 and for the period from October 6, 2014 to December 31, 2014 as (\$1.88), (\$2.08), (\$1.89) and (\$0.31) per share of common stock outstanding as of record date, respectively.
- (6) Common stock distributions from net realized gains on investments were previously reported on a U.S. GAAP basis for the years ended December 31, 2017, December 31, 2016, December 31, 2015 and for the period from October 6, 2014 to December 31, 2014 as (\$0.19), (\$0.12), (\$0.02) and (\$0.00) per share of common stock outstanding as of record date, respectively.
- (7) Common stock distributions from return of capital were previously reported on a U.S. GAAP basis for the years ended December 31, 2017, December 31, 2016, December 31, 2015 and for the period from October 6, 2014 to December 31, 2014 as (\$0.58), (\$0.20), (\$0.49) and (\$0.24) per share of common stock outstanding as of record date, respectively.
- (8) Represents the effect per share of the Company's ATM offerings as well as the Company's follow-on offerings. Effect of shares issued reflect the excess of offering price over management's estimated NAV per share at the time of each respective offering.
- (9) Total return based on market value is calculated assuming shares of the Company's common stock were purchased at the market price as of the beginning of the period, and distributions paid to common stockholders during the period were reinvested at prices obtained by the Company's dividend reinvestment plan, and the total number of shares were sold at the closing market price per share on the last day of the period. Total return does not reflect any sales load. Total return for the period from October 6, 2014 to December 31, 2014 is not annualized.
- (10) Ratios for the period from October 6, 2014 to December 31, 2014 are annualized. Ratios include distributions paid to preferred stockholders. Additionally, ratios for the year ended December 31, 2018 include the portion of incentive fee voluntarily waived by the Adviser of 0.09% of average net assets.
- (11) Ratios for the year ended December 31, 2018 include interest expense on the Preferred Stock and the Unsecured Notes of 4.16% of average net assets. Ratios for the year ended December 31, 2017 include interest expense on the Preferred Stock and the Unsecured Notes of 4.20% of average net assets. Ratios for the year ended December 31, 2016 include interest expense on the Preferred Stock and the Series 2020 Notes of 3.47% of average net assets, as well as excise taxes of 0.26% of average net assets. Ratios for the year ended December 31, 2015 include interest expense on the Series A Term Preferred Stock and the Series 2020 Notes of 1.04% of average net assets.
- (12) The portfolio turnover rate is calculated as the total of investment sales executed during the period, divided by the average fair value of investments for the same period.
- (13) Effect of other comprehensive income is related to income deemed attributable to instrument specific credit risk derived from changes in fair value associated with liabilities valued under the fair value option (ASC 825.)
- (14) As of December 31, 2018, the caption has been updated to clarify the line item description. No prior period numbers have been changed.

## Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors  
Eagle Point Credit Company Inc.

### *Opinion on the Consolidated Financial Statements*

We have audited the accompanying consolidated statement of assets and liabilities of Eagle Point Credit Company Inc. & Subsidiaries (the Company), including the consolidated schedule of investments, as of December 31, 2018, the related consolidated statement of operations, comprehensive income and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the years in the two-year period then ended, and the related consolidated notes (collectively, the financial statements) and the financial highlights for each of the years in the four-year period then ended, the period from October 6, 2014 to December 31, 2014 and the period from June 6, 2014 (commencement of operations) to October 5, 2014. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Company as of December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the four-year period then ended, the period from October 6, 2014 to December 31, 2014 and the period from June 6, 2014 (commencement of operations) to October 5, 2014, in conformity with U.S. generally accepted accounting principles.

### *Basis for Opinion*

These consolidated financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements and financial highlights. Such procedures also included confirmation of securities owned as of December 31, 2018, by correspondence with custodians and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

**KPMG LLP**

We have served as the auditor of one or more Eagle Point Investment Credit Management advised companies since 2014.

New York, New York  
February 20, 2019

## Dividend Reinvestment Plan

The Company has established an automatic dividend reinvestment plan (“DRIP”). Each record holder of at least one full share of our common stock will be automatically enrolled in the DRIP. Under the DRIP, distributions on shares of the Company’s common stock are automatically reinvested in additional shares of the Company’s common stock by American Stock Transfer and Trust Company, LLC (the “DRIP Agent”) unless a stockholder “opts-out” of the DRIP. Holders of the Company’s common stock who receive distributions in the form of additional shares of the Company’s common stock are nonetheless required to pay applicable federal, state or local taxes on the reinvested distribution but will not receive a corresponding cash distribution with which to pay any applicable tax. Holders of shares of the Company’s common stock who opt-out of participation in the DRIP (including those holders whose shares are held through a broker or other nominee who has opted out of participation in the DRIP) will receive all distributions in cash. Reinvested distributions increase the Company’s stockholders’ equity on which a management fee is payable to the Adviser.

If the Company declares a distribution payable in cash, the Company will issue shares of common stock to participants at a value equal to 95% of the market price per share of common stock at the close of regular trading on the payment date for such distribution unless the DRIP Agent otherwise purchases shares in the open market, as described below. The number of additional shares of common stock to be credited to each participant’s account will be determined by dividing the dollar amount of the distribution by 95% of the market price. However, the Company reserves the right to purchase shares in the open market in connection with its implementation of the DRIP. If we declare a distribution to holders of our common stock, the DRIP Agent may be instructed not to credit accounts with newly issued shares and instead to buy shares in the open market if (i) the price at which newly issued shares are to be credited does not exceed 110% of the last determined NAV of the shares; or (ii) the Company has advised the DRIP Agent that since such NAV was last determined, the Company has become aware of events that indicate the possibility of a material change in per share NAV as a result of which the NAV of the shares on the payment date might be higher than the price at which the DRIP Agent would credit newly issued shares to stockholders.

In the event that the DRIP Agent is instructed to buy shares of our common stock in the open market, the DRIP Agent (or the DRIP Agent’s broker) will have until the last business day before the next date on which the shares trade on an “ex-dividend” basis or 30 days after the payment date for the applicable distribution, whichever is sooner (the “Last Purchase Date”), to invest the distribution amount in shares acquired in the open market. Open market purchases may be made on any securities exchange where shares of our common stock are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the DRIP Agent shall determine. If, before the DRIP Agent has completed its open market purchases, the market price per share of our common stock exceeds the NAV per share, the average per share purchase price paid by the DRIP Agent may exceed the NAV of the shares, resulting in the acquisition of fewer shares than if the distribution had been paid in newly issued shares of common stock on the applicable payment date. Because of the foregoing difficulty with respect to open market purchases, the DRIP provides that if the DRIP Agent is unable to invest the full distribution amount in open market purchases during the purchase period or if the market discount shifts to a market premium of 10% or more of NAV during the purchase period, the DRIP Agent may cease making open market purchases and may invest the uninvested portion of the distribution amount in newly issued shares of common stock at the NAV per share at the close of business on the Last Purchase Date provided that, if the NAV is less than or equal to 95% of the then current market price per share, the dollar amount of the distribution will be divided by 95% of the market price on the payment date.

There are no brokerage charges with respect to shares of common stock issued directly by the Company. However, whenever shares are purchased or sold on the NYSE or otherwise on the open market, each participant will pay a pro rata portion of brokerage trading fees, currently \$0.10 per share purchased or sold. Brokerage trading fees will be deducted from amounts to be invested.

Holders of the Company’s common stock can also sell shares held in the DRIP account at any time by contacting the DRIP Agent in writing at American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. The DRIP Agent will mail a check to such holder (less applicable brokerage trading fees) on the settlement date, which is three business days after the shares have been sold. If a stockholder chooses to sell its shares through a broker, the

holder will need to request that the DRIP Agent electronically transfer their shares to the broker through the Direct Registration System.

Stockholders participating in the DRIP may withdraw from the DRIP at any time by contacting the DRIP Agent in writing at American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. Such termination will be effective immediately if the notice is received by the DRIP Agent prior to any dividend or distribution record date; otherwise, such termination will be effective on the first trading day after the payment date for such dividend or distribution, with respect to any subsequent dividend or distribution. If a holder of the Company's common stock withdraws, full shares will be credited to their account, and the stockholder will be sent a check for the cash adjustment of any fractional share at the market value per share of the Company's common stock as of the close of business on the day the termination is effective, less any applicable fees. Alternatively, if the stockholder wishes, the DRIP Agent will sell their full and fractional shares and send them the proceeds, less a transaction fee of \$15.00 and less brokerage trading fees of \$0.10 per share. If a stockholder does not maintain at least one whole share of common stock in the DRIP account, the DRIP Agent may terminate such stockholder's participation in the DRIP Plan after written notice. Upon termination, stockholders will be sent a check for the cash value of any fractional share in the DRIP account, less any applicable broker commissions and taxes.

Stockholders who are not participants in the DRIP, but hold at least one full share of our common stock, may join the DRIP by notifying the DRIP Agent in writing at American Stock Transfer and Trust Company, LLC, P.O. Box 922, Wall Street Station, New York, NY 10269-0560. If received in proper form by the DRIP Agent before the record date of a dividend, the election will be effective with respect to all dividends paid after such record date. If a stockholders wishes to participate in the DRIP and their shares are held in the name of a brokerage firm, bank or other nominee, the stockholder should contact their nominee to see if it will participate in the DRIP. If a stockholder wishes to participate in the DRIP Plan, but the brokerage firm, bank or other nominee is unable to participate on their behalf, the stockholder will need to request that their shares be re-registered in their own name, or the stockholder will not be able to participate. The DRIP Agent will administer the DRIP on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in their name and held for their account by their nominee.

Experience under the DRIP Plan may indicate that changes are desirable. Accordingly, the Company and the DRIP Agent reserve the right to amend or terminate the DRIP upon written notice to each participant at least 30 days before the record date for the payment of any dividend or distribution by the Company.

All correspondence or additional information about the DRIP should be directed to American Stock Transfer and Trust Company, LLC, 6201 15th Avenue, Brooklyn, NY 11219.

## Additional Information

### Management

Our Board of Directors (the “Board”) is responsible for managing the Company’s affairs, including the appointment of advisers and sub-advisers. The Board has appointed officers who assist in managing the Company’s day-to-day affairs.

#### *The Board*

The Board currently consists of six members, four of whom are not “interested persons” (as defined in the Investment Company Act of 1940, as amended (the “1940 Act”)) of the Company. The Company refers to these directors as the Company’s “independent directors.”

Under our certificate of incorporation and bylaws, our board of directors is divided into three classes with staggered terms, with the term of only one of the three classes expiring at each annual meeting of our stockholders. The classification of the board across staggered terms may prevent replacement of a majority of the directors for up to a two-year period.

The directors and officers of the Company are listed below. Except as indicated, each individual has held the office shown or other offices with the same company for the last five years. Certain of the Company’s officers and directors also are officers or managers of our Adviser. Each of our directors also serves as a director of Eagle Point Income Company Inc., a registered investment company for which an affiliate of our Adviser serves as investment adviser.

Name, Address <sup>1</sup> and Age	Position(s) held with the Company	Term of Office and Length of Time Served	Principal Occupation(s) During the Past 5 Years	Other Directorships <sup>3</sup>
---------------------------------------	--------------------------------------	---	--	----------------------------------

#### Interested Directors<sup>2</sup>

Thomas P. Majewski Age: 44	Class III Director and Chief Executive Officer	Since inception; Term expires 2020	Managing Partner of Eagle Point Income Management LLC since September 2018; Managing Partner of Eagle Point Credit Management LLC since September 2012.	Director of Eagle Point Income Company Inc.
James R. Matthews Age: 51	Class II Director and Chairperson of the Board	Since inception; Term expires 2019	Principal of Stone Point Capital LLC since October 2011.	Director of Eagle Point Income Company Inc.

#### Independent Directors

Scott W. Appleby Age: 54	Class I Director	Since inception; Term expires 2021	President of Appleby Capital, Inc. since April 2009.	Director of Eagle Point Income Company Inc.
Kevin F. McDonald Age: 52	Class III Director	Since inception; Term expires 2020	Chief Operating Officer of AltaRock Partners since January 2019; Director of Business Development and Investor Relations of Folger Hill Asset Management, LP from December 2014 to July 2018; Principal of Taylor Investment Advisors, LP from March 2002 to March 2017; Chief Executive Officer of Taylor Investment Advisors, LP from 2006 to December 2014.	Director of Eagle Point Income Company Inc.

Name, Address <sup>1</sup> and Age	Position(s) held with the Company	Term of Office and Length of Time Served	Principal Occupation(s) During the Past 5 Years	Other Directorships <sup>3</sup>
Paul E. Tramontano Age: 57	Class II Director	Since inception; Term expires 2019	Senior Managing Director and Portfolio Manager at First Republic Investment Management since October 2015; Co-Chief Executive Officer of Constellation Wealth Advisors LLC from April 2007 to October 2015.	Director of Eagle Point Income Company Inc.
Jeffrey L. Weiss Age: 57	Class I Director	Since inception; Term expires 2021	Private Investor since June 2012; Managing Partner of Colter Lewis Investment Partners since January 2018.	Director of Eagle Point Income Company Inc.

<sup>1</sup> The business address of each of our directors is c/o Eagle Point Credit Company Inc., 600 Steamboat Road, Suite 202, Greenwich, Connecticut 06830.

<sup>2</sup> Mr. Majewski is an interested director due to his position with the Adviser. Mr. Matthews is an interested director due to his position with Stone Point Capital LLC, which is an affiliate of the Adviser.

<sup>3</sup> Eagle Point Income Company Inc. is considered to be in the same fund complex as us and, as a result, each director serves as a director of two investment companies in the same complex.

The Company's registration statement, prospectus and proxy statement for the annual stockholders' meeting include additional information about our directors. A copy of the prospectus and proxy statement is available free of charge at [www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com) or upon request by calling (844) 810-6501.

### Officers

Information regarding our officers who are not directors is as follows:

Name, Address <sup>1</sup> and Age	Positions Held with the Company	Term of Office and Length of Time Served <sup>2</sup>	Principal Occupation(s) During the Last Five Years
Kenneth P. Onorio Age: 50	Chief Financial Officer and Chief Operating Officer	Since July 2014	Chief Financial Officer and Chief Operating Officer of Eagle Point Income Company since October 2018; Chief Financial Officer of the Adviser since July 2014 and Eagle Point Income Management since October 2018; Chief Operating Officer of the Adviser since August 2014 and Eagle Point Income Management since October 2018; Executive Director of Private Equity and Hedge Fund Administration at JPMorgan Alternative Investment Services from September 2008 to July 2014.
Nauman S. Malik Age: 38	Chief Compliance Officer	Since September 2015	Chief Compliance Officer of Eagle Point Income Company since October 2018; General Counsel of the Adviser since June 2015 and Eagle Point Income Management since October 2018; Chief Compliance Officer of the Adviser since September 2015 and Eagle Point Income Management since October 2018; Associate, Dechert LLP, a law firm, from September 2012 to May 2015.
Courtney B. Fandrick Age: 36	Secretary	Since August 2015	Deputy Chief Compliance Officer of the Adviser since December 2014 and Eagle Point Income Management LLC since October 2018; Secretary of Eagle Point Income Company since October 2018; Senior Compliance Associate, Bridgewater Associates, LP from August 2007 to December 2014.

<sup>1</sup> The business address of each of our officers is c/o Eagle Point Credit Company Inc., 600 Steamboat Rd, Suite 202, Greenwich, Connecticut 06830. All of our officers are officers or employees of the Adviser or affiliated companies.

<sup>2</sup> Each officer holds office until his or her successor is chosen and qualifies, or until his or her earlier resignation or removal.

## Director and Officer Compensation

Our directors received compensation from the Company in the amounts set forth in the following table during the fiscal year ended December 31, 2018.

Name	Aggregate Compensation from the Company <sup>1,2</sup>
Scott W. Appleby	\$50,000
Kevin F. McDonald	\$47,500
Paul E. Tramontano	\$47,500
Jeffrey L. Weiss	\$53,750
TOTAL	\$198,750*

\* Does not reflect \$198,750 relating to the year ended December 31, 2018 that was paid during the month ended January 31, 2019, which amount was comprised of \$50,000, \$47,500, \$47,500 and \$53,750 paid to each of Mr. Appleby, Mr. McDonald, Mr. Tramontano and Mr. Weiss, respectively.

<sup>1</sup> For a discussion of the independent directors' compensation, see below.

<sup>2</sup> The Company does not maintain a pension plan or retirement plan for any of our directors.

As compensation for serving on the Board, effective January 1, 2018, each independent director receives an annual fee of \$95,000. The chairman of the audit committee receives an additional annual fee of \$12,500 and the chairman of the nominating committee receives an additional annual fee of \$5,000 for their additional services in these capacities, as well as reasonable out-of-pocket expenses incurred in attending such meetings.

No compensation is, or is expected to be, paid by us to our directors who are "interested persons" of us, as such term is defined in the 1940 Act, or to our officers. Our officers are compensated by the Adviser or one of its affiliates, as applicable.

We have entered into an Administration Agreement pursuant to which Eagle Point Administration LLC, our administrator ("Eagle Point Administration"), performs, or arranges for the performance of, our required administrative services, among other things. Payments under the Administration Agreement are equal to an amount based upon our allocable portion of Eagle Point Administration's overhead in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and our allocable portion of the compensation of our chief financial officer and chief compliance officer and our allocable portion of the compensation of any administrative support staff. Our allocable portion of such total compensation is based on an allocation of the time spent on us relative to other matters. The Administration Agreement will remain in effect if approved by the Board, including by a majority of our independent directors, on an annual basis. The Administration Agreement was most recently reapproved by the Board in May 2018.

## Stockholder Meeting Information

An annual meeting of stockholders of the Company was held on May 9, 2018. At the meeting, the two nominees for re-election as Class I directors, Scott W. Appleby and Jeffrey L. Weiss, were each elected to serve as a director for a term expiring at the Company's 2021 annual meeting or until his successor is duly elected and qualified. A discussion regarding the voting at such meeting is available in our Semiannual Report for the period ended June 30, 2018. A copy of the Semiannual Report is available free of charge at [www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com), upon request by calling (844) 810-6501, or from the EDGAR Database on the SEC's website ([www.sec.gov](http://www.sec.gov)).

## Investment Advisory Agreement

Subject to the overall supervision of our Board, the Adviser manages the day-to-day operations of, and provides investment advisory and management services to, us pursuant to an Investment Advisory Agreement (the "Advisory Agreement"). A discussion regarding the basis for the Board's approval of the Advisory Agreement is available in our Semiannual Report for the period ended June 30, 2018. A copy of the Semiannual Report is available free of charge at

www.eaglepointcreditcompany.com, upon request by calling (844) 810-6501, or from the EDGAR Database on the SEC's website ([www.sec.gov](http://www.sec.gov)).

## Portfolio Information

The Company files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Company's Forms N-Q are available on the SEC's website at <http://www.sec.gov>. The SEC's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Company also makes its Form N-Q filings available on its website at [www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com).

## Proxy Information

The Company has delegated its proxy voting responsibility to the Adviser. A description of these policies and procedures is available (1) without charge, upon request, by calling toll free (844) 810-6501; and (2) in the Company's posteffective amendment filing to its registration statement on Form N-2 made on May 2, 2018 with the SEC, which can be found on the SEC's website ([www.sec.gov](http://www.sec.gov)).

Information regarding how the Company voted proxies relating to portfolio securities for the 12-month period ending June 30, 2018 is available: (1) without charge, upon request, by calling toll free (844) 810-6501; and (2) in the Company's Form N-PX filing made on July 31, 2018 with the SEC, which can be found on the SEC's website ([www.sec.gov](http://www.sec.gov)). The Company also makes this information available on its website at [www.eaglepointcreditcompany.com](http://www.eaglepointcreditcompany.com).

## Tax Information

For the tax year ended November 30, 2018, the Company recorded distributions on our common stock equal to \$2.40 per share or \$51.5 million.

## Privacy Notice

The Company is committed to protecting your privacy. This privacy notice explains the privacy policies of Eagle Point Credit Company Inc. and its affiliated companies. The terms of this notice apply to both current and former stockholders. The Company will safeguard, according to strict standards of security and confidentiality, all information it receives about you. With regard to this information, the Company maintains procedural safeguards that are reasonably designed to comply with federal standards. We have implemented procedures that are designed to restrict access to your personal information to authorized employees of the Company's investment adviser, Eagle Point Credit Management, LLC and its affiliates who need to know your personal information to perform their jobs, and in connection with servicing your account. The Company's goal is to limit the collection and use of information about you. While we may share your personal information with our affiliates in connection with servicing your account, our affiliates are not permitted to share your information with non-affiliated entities, except as permitted or required by law.

When you purchase shares of the Company's common stock and in the course of providing you with products and services, we and certain of our service providers, such as a transfer agent, may collect personal information about you, such as your name, address, social security number or tax identification number. This information may come from sources such as account applications and other forms, from other written, electronic or verbal correspondence, from your transactions, from your brokerage or financial advisory firm, financial adviser or consultant, and/or information captured on applicable websites.

We do not disclose any personal information provided by you or gathered by us to non-affiliated third parties, except as permitted or required by law or for our everyday business purposes, such as to process transactions or service your account. For example, we may share your personal information in order to send you annual and semiannual reports, proxy statements and other information required by law, and to send you information the Company believes may be of interest to you. We may disclose your personal information to unaffiliated third party financial service providers (which may include a custodian, transfer agent, accountant or financial printer) who need to know that information in order to provide services to you or to the Company. These companies are required to protect your information and use it solely for the purpose for which they received

it or as otherwise permitted by law. We may also provide your personal information to your brokerage or financial advisory firm and/or to your financial adviser or consultant, as well as to professional advisors, such as accountants, lawyers and consultants.

We reserve the right to disclose or report personal or account information to non-affiliated third parties in limited circumstances where we believe in good faith that disclosure is required by law, such as in accordance with a court order or at the request of government regulators or law enforcement authorities or to protect our rights or property. We may also disclose your personal information to a non-affiliated third party at your request or if you consent in writing to the disclosure.

If you have any queries or concerns about the privacy of your personal information, please contact our investor relations team at (203) 340-8500 or (844) 810-6501.

We will review this policy from time to time and may update it at our discretion. This policy was last updated in February 2019.
