EAGLE POINT CREDIT COMPANY

QUARTERLY UPDATE - 2Q 2023

AUGUST 15, 2023

IMPORTANT INFORMATION

This report and the information and views included herein do not constitute investment advice, or a recommendation or an offer to enter into any transaction with Eagle Point Credit Company Inc. (the "Company") or any of its affiliates. This report is provided for informational purposes only, does not constitute an offer to sell securities of the Company or a solicitation of an offer to purchase any such securities, and is not a prospectus. From time to time, the Company may have a registration statement relating to one or more of its securities on file with the Securities and Exchange Commission ("SEC"). Any registration statement that has not yet been declared effective by the SEC, and any prospectus relating thereto, is not complete and may be changed. Any securities that are the subject of such a registration statement may not be sold until the registration statement filed with the SEC is effective.

This presentation is solely for the use of the intended recipient(s). The information and its contents are the property of Eagle Point Credit Management LLC and/or the Company. Any unauthorized dissemination, copying or use of this presentation is strictly prohibited and may be in violation of law. This presentation is being provided for informational purposes only.

Investors should read the Company's prospectus and SEC filings (which are publicly available on the EDGAR Database on the SEC website at http://www.sec.gov) carefully and consider their investment goals, time horizons and risk tolerance before investing in the Company. Investors should consider the Company's investment objectives, risks, charges and expenses carefully before investing in securities of the Company. There is no guarantee that any of the goals, targets or objectives described in this report will be achieved. An investment in the Company is not appropriate for all investors. The investment program of the Company is speculative, entails substantial risk and includes investment techniques not employed by traditional mutual funds. An investment in the Company is not intended to be a complete investment program. Shares of closed-end investment companies, such as the Company, frequently trade at a discount from their net asset value, which may increase investors' risk of loss. Past performance is not indicative of, or a guarantee of, future performance. The performance and certain other portfolio information quoted herein represents information as of dates noted herein. Nothing herein shall be relied upon as a representation as to the future performance or portfolio holdings of the Company. Investment return and principal value of an investment will fluctuate, and shares, when sold, may be worth more or less than their original cost. The Company's performance is subject to change since the end of the period noted in this report and may be lower or higher than the performance data shown herein.

Neither Eagle Point Credit Management LLC nor the Company provides legal, accounting or tax advice. Any statement regarding such matters is explanatory and may not be relied upon as definitive advice. Investors should consult with their legal, accounting and tax advisers regarding any potential investment. The information presented herein is as of the dates noted herein and is derived from financial and other information of the Company, and, in certain cases, from third party sources and reports (including reports of third party custodians, CLO collateral managers and trustees) that have not been independently verified by the Company. As noted herein, certain of this information is estimated and unaudited, and therefore subject to change. We do not represent that such information is accurate or complete, and it should not be relied upon as such. This report does not purport to be complete and no obligation to update or revise any information herein is being assumed.

Information contained on our website is not incorporated by reference into this report and you should not consider information contained on our website to be part of this report or any other report we file with the SEC.

ABOUT EAGLE POINT CREDIT COMPANY

The Company is a non-diversified, closed-end management investment company. The Company's primary investment objective is to generate high current income with the secondary objective to generate capital appreciation, primarily through investment in equity and junior debt tranches of CLOs. The Company is externally managed and advised by Eagle Point Credit Management LLC. The Company makes certain unaudited portfolio information available each month on its website in addition to making certain other unaudited financial information available on its website (www.eaglepointcreditcompany.com). This information includes (1) an estimated range of the Company's NII and realized capital gains or losses per share of common stock for each calendar quarter end, generally made available within the first fifteen days after the applicable calendar month end, (2) an estimated range of the Company's NAV per share of common stock for the prior month end and certain additional portfolio-level information, generally made available within the first fifteen days after the applicable calendar month end, and (3) during the latter part of each month, an updated estimate of NAV, if applicable, and, with respect to each calendar quarter end, an updated estimate of the Company's NII and realized capital gains or losses per share for the applicable quarter, if available.

FORWARD-LOOKING STATEMENTS

These materials may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Statements other than statements of historical facts included in this presentation may constitute forward-looking statements and are not guarantees of future performance or results and involve a number of risks and uncertainties. Actual results may differ materially from those in the forward-looking statements as a result of a number of factors, including those described in the prospectus and the Company's other filings with the SEC. The Company undertakes no duty to update any forward-looking statement made herein. All forward-looking statements speak only as of the date of this presentation.

INTRODUCTION TO EAGLE POINT CREDIT COMPANY(ECC)

Company and Adviser Overview

The Company: Eagle	The Company: Eagle Point Credit Company Inc. (ECC)									
IPO Date	October 7, 2014									
Primary Investment Objective	 To generate high current income by investing primarily in equity and junior debt tranches of collateralized loan obligations, or "CLOs" 									
Total Market Capitalization	• \$877.3 million ¹									
Distributions	 Monthly distribution of \$0.16 per share of common stock beginning in April 2023 (distribution rate of 18.5%)² \$19.03 cumulative common distributions per share since IPO² 									

The Adviser: Eagle F	Point Credit Management LLC
History	 Eagle Point Credit Management LLC ("Eagle Point" or the "Adviser") was formed in 2012 by Thomas Majewski and Stone Point Capital
Asset Under Management	 Over \$8.2 billion³ managed on behalf of institutional, high net worth, and retail investors

^{1.} Combined market capitalization of ECC, ECCC, ECC PRD, ECCX, ECCW and ECCV based on securities outstanding as of June 30, 2023 and market prices as of July 31, 2023.

^{2.} Based on ECC's closing market price of \$10.36 per share on July 31, 2023 and frequency and aggregate amount of regular and supplemental distributions most recently declared by the Company. Cumulative common distribution amount is as of June 30, 2023. To date, a portion of common stock distributions has been estimated to be a return of capital as noted under the Tax Information section on the Company's website. The actual components of the Company's distributions for U.S. tax reporting purposes can only be finally determined as of the end of each fiscal year of the Company and are thereafter reported on Form 1099-DIV. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income". Future distributions may consist of a return of capital. Not a guarantee of future distributions or yield.

^{3.} As of June 30, 2023 and also reflects amounts managed by Eagle Point Income Management LLC, an affiliate of the Adviser, inclusive of capital commitments that were undrawn as of such date.

CLO Equity is an Attractive Asset Class	 The Credit Suisse Leveraged Loan Index has generated positive total returns in 28 of the past 31 full calendar years¹ Eagle Point believes CLO equity provides an attractive way to obtain exposure to senior secured loans
Specialized Investment Team	 Eagle Point is focused on CLO securities and related investments (as well as other income-oriented investments), and each member of the Senior Investment Team is a CLO industry specialist who has been directly involved in the CLO market for the majority of his career
Differentiated Investment Strategy and Process	 The Company pursues a differentiated private equity style investment approach focused on proactively sourcing investment opportunities in CLO equity, seeking to take significant stakes and to influence key terms and conditions
Alignment of Interests	 Adviser and Senior Investment Team have approximately \$16.2 million invested in securities issued by the Company²

Past performance is not indicative of, or a guarantee of, future performance.

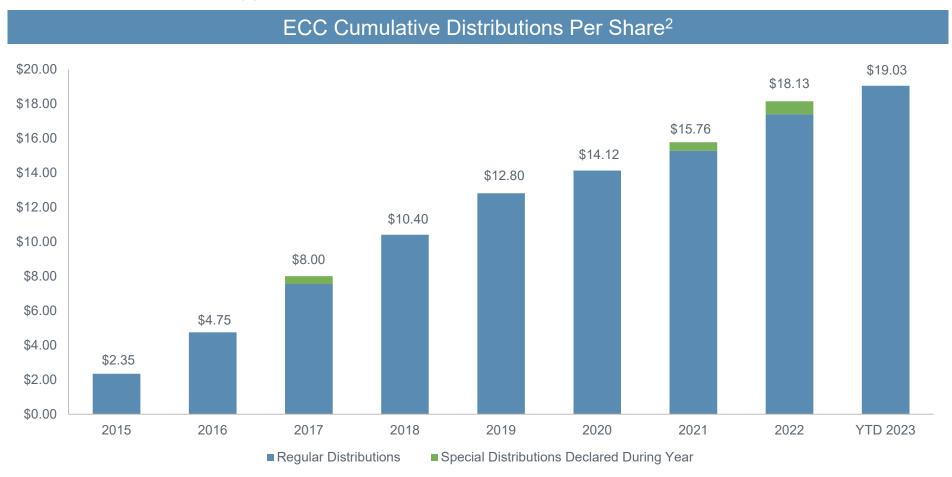

^{1.} The CSLLI tracks the investable universe of the US dollar-denominated leveraged loan market. The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index. Similarly, since 2001, from a total return perspective, the Morningstar LSTA US Leveraged Loan Index experienced only three down full calendar years (2008, 2015 and 2022 with returns of -29.1%, -0.7% and -0.6%, respectively). The Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. leveraged loan market based upon weightings, spreads and interest payments.

^{2.} Amount includes holdings of Eagle Point and its senior investment personnel as of June 30, 2023 (based on market values as of July 31, 2023).

Cumulative Common Stock Distributions

ECC currently pays an aggregate monthly distribution of \$0.16 per share, inclusive of a \$0.14 regular distribution and a \$0.02 supplemental distribution¹

^{1.} Based on frequency of regular and supplemental distributions most recently declared by the Company.

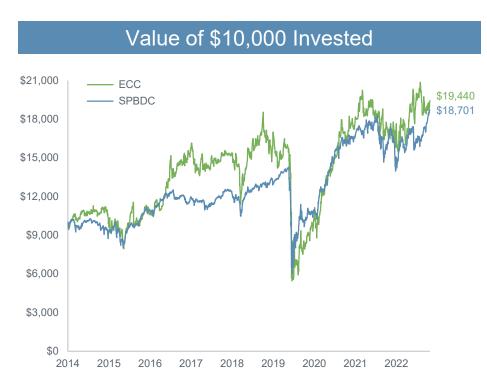

^{2.} As of June 30, 2023. To date, a portion of common stock distributions has been estimated to be a return of capital as noted under the Tax Information section on the Company's website. The actual components of the Company's distributions for U.S. tax reporting purposes can only be finally determined as of the end of each fiscal year of the Company and are thereafter reported on Form 1099-DIV. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income". Future distributions may consist of a return of capital. **Not a guarantee of future distributions or yield.**

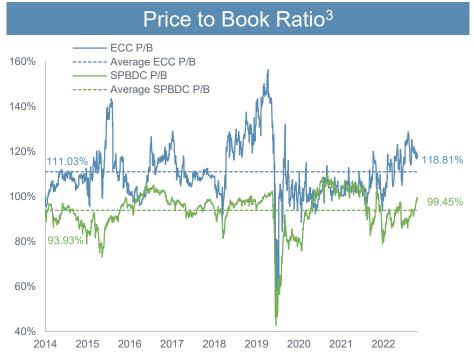

Track Record: Common Stock Total Return and Price to Book Ratio

For the period of October 7, 2014 – July 31, 2023:

- ECC generated a total return¹ of 94.40% versus 87.01% for the S&P BDC Index² (annualized net total return of 7.83% for ECC versus 7.36% for the S&P BDC Index)
- ECC traded at an average premium to book value of 11.0% while the BDCs comprising the S&P BDC Index² traded at an average discount of -6.1%

Past performance is not indicative of, or a guarantee of, future performance.

- 1. Total return is calculated as the percent change in the value of \$10,000 invested in ECC common stock at the time of the Company's IPO and assumes that any dividends or distributions are reinvested at prices obtained by the Company's dividend reinvestment plan on the applicable payment date. Future results may vary and may be higher or lower than those shown. Returns do not reflect the deduction of taxes that a shareholder would pay on Company distributions or the sale of Company shares.
- 2. The S&P BDC Index is designed to track leading business development companies (BDCs) that trade on NYSE and NASDAQ and satisfy market capitalization and equity requirements. Although ECC is not a BDC, BDCs generally invest in high yielding credit investments, as does ECC. In addition, similar to ECC, BDCs generally elect to be classified as a regulated investment company under the U.S. Internal Revenue Code of 1986, as amended, which generally requires an investment company to distribute its taxable income to shareholders. You cannot invest directly in an index.
- 3. Price to book is calculated as price per share divided by book value per share, which for ECC, reflects management's reported estimate of book value for periods where final determined book values are not available. Future results may vary and may be higher or lower than those shown.

SENIOR INVESTMENT TEAM AND INVESTMENT PROCESS

INVESTMENT PROCESS

Senior Investment Team

Thomas Majewski
Founder and Managing
Partner

Daniel Ko
Senior Principal and Portfolio
Manager

Daniel Spinner, CAIASenior Principal and Portfolio
Manager

27 Years of Experience

Background

Direct experience in the credit markets dating back to the 1990s

- Mr. Majewski has spent his entire 27 year career in the credit and structured finance markets
- Formerly responsible for managing diverse credit portfolio for AMP Capital/AE Capital
- Led the creation of some of the earliest refinancing CLOs, pioneering techniques that are now commonplace in the market
- Unique background as both a CLO investor and investment banker including Former Head of CLO Banking at Merrill Lynch and RBS
- EY Entrepreneur of the Year Award (2017)

17 Years of Experience

Background

Direct experience in fixed income markets dating back to 2006

- Portfolio Manager for the CLO Strategy
- Specialized exclusively in structured finance throughout entire career
- Former Vice President at Bank of America Merrill Lynch in the CLO structuring group responsible for modeling deal cash flows, negotiating deal terms with both debt and equity investors and coordinating the rating process

26 Years of Experience

Background

Direct experience financing and advising asset managers and funds dating back to the 1990s

- Portfolio Manager for the Defensive Income Strategy
- Former Investment Analyst at the 1199SEIU
 Pension responsible for the private equity, real estate and special opportunities credit portfolios
- Credit trained in 1996 at Chase Manhattan Bank

INVESTMENT PROCESS

Private Equity Approach to Fixed Income Investing

Eagle Point employs a process that we believe is more akin to a private equity-style investment approach than the typical process used by many investors in fixed income securities

Investment Strategy and Process

- Proactive sourcing of investment opportunities
- Utilization of our methodical and rigorous investment analysis and due diligence process
- Involvement at the CLO formation and structuring stage enables us to influence the key terms and conditions of the investment for significant primary market investments
- Ongoing monitoring and diligence

Objective of the Process

- Outperformance relative to the CLO market
 - In the primary market, Eagle Point seeks to invest in CLO securities that have the potential to outperform other similar CLO securities issued within the respective vintage period

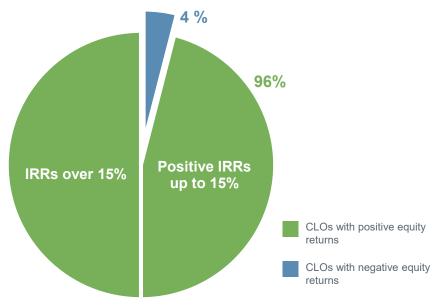

Why Invest in CLO Equity?

Eagle Point believes that CLO equity provides an attractive way to obtain exposure to loans

Distribution of CLO Equity IRRs U.S. CLOs (2002 – 2011 Vintages)¹

 CLO equity has historically generated strong absolute returns with a low loss rate

CLO Equity Attributes

- Potential for strong absolute and risk-adjusted returns
- Expected shorter duration high-yielding credit investment with potential for high quarterly cash distributions
- Expected protection against rising interest rates²
- Expected low-to-moderate correlation over the longterm with fixed income and equity

Past performance is not indicative of, or a guarantee of, future performance.

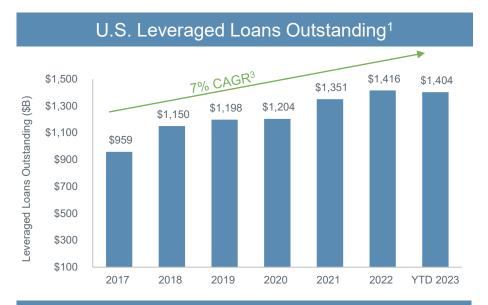

Source: Compiled by Eagle Point based on data from Intex, Bloomberg, and Moody's Investors Service. As of November 2, 2017.

- 1. This chart shows certain performance data for CLO 1.0 vintages. For this purpose, CLO 1.0 vintages are defined as US broadly syndicated cash flow CLOs that were originated from 2002 to 2011. Information for later vintage CLOs is not as complete and is therefore not shown. The figures presented in this report do not reflect any projections regarding the returns of any investment strategy and all returns earned on CLO investments will be reduced by any applicable expenses and management fees. Actual performance of a CLO investment will vary and such variance may be material and adverse, including the potential for full loss of principal. In particular, ECC is only invested in CLOs issued after 2011 (the CLO 2.0 period) and no representation is being made with respect to the historical or future performance of such later issued CLOs. CLO investments involve multiple risks, including unhedged credit exposure to companies with speculative-grade ratings, the use of leverage and pricing volatility. The analysis was prepared by Eagle Point based on its proprietary analysis of data sourced from Intex, Bloomberg, Moody's Investors Service, and proprietary CLO Manager presentations. While the data and information contained in this report have been obtained from sources that Eagle Point considers reliable, Eagle Point has not independently verified all such data and does not represent or warrant that such data and information are accurate or complete, and thus they should not be relied upon as such. In addition, for purposes of this analysis, IRRs were calculated at the CLO level net of all CLO-related expenses and some of such IRRs have certain inherent limitations as they are calculated based on certain underlying assumptions, which may under or over compensate for the impact, if any, of certain market factors and financial risk, such as lack of liquidity, macroeconomic factors and other similar factors. The IRR calculations assume an initial cash investment equal to the par balance of the equity tranche. For redeemed
- 2. The Adviser expects CLO equity to provide some measure of protection against rising interest rates when the applicable benchmark rate is greater than the benchmark rate floor on a CLO's underlying assets (which can typically range from 0.00% to 1.00% depending on the loan). However, CLO equity is also subject to other forms of interest rate risk.

The CLO Market is Large and Important to the Loan Market

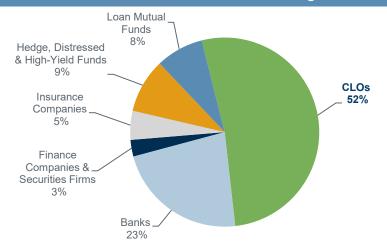

The CLO market is the largest source of capital for the U.S. senior secured loan market¹

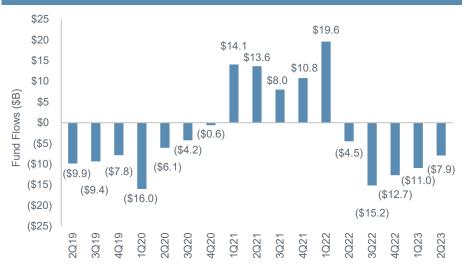

Demand for Institutional Leveraged Loans⁴

^{1.} The CSLLI launched January 31, 1992 and tracks the investable universe of the US dollar-denominated leveraged loan market. The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index. Similarly, since 2001, from a total return perspective, the Morningstar LSTA US Leveraged Loan Index experienced only three down years (2008, 2015 and 2022 with returns of -29.1%, -0.7% and -0.6%, respectively). The Morningstar LSTA US Leveraged Loan Index is a market value-weighted index designed to measure the performance of the U.S. leveraged loan market based upon weightings, spreads and interest payments.

Senior Secured Loans are the Raw Materials of CLOs

Senior Secured Loans Represent "Pure" Credit Exposure

Senior	Senior position in a company's capital structure
Secured	First lien security interest in a company's assets
Floating Rate	Mitigates interest rate risk associated with fixed rate bonds ¹
Low LTV	Senior secured loans often have a loan-to-value ratio of approximately 40-60% ²
Consistent Returns	Since 1992, the Credit Suisse Leveraged Loan Index experienced only three years of negative total returns

Illustrative Underlying Loan Obligors in CLOs³

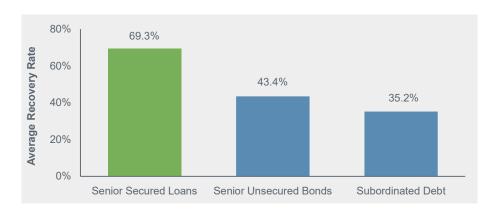

Representative Company Capital Structure

% of Capital Structure **Assets** Liabilities and Equity Cash Senior Secured Loans 40-60% First priority pledge of assets Receivables Inventory Property **Subordinated Bonds** 10-20% Plant Generally unsecured Equipment Brands/Logos Intangibles 30-50% **Equity** Subsidiaries

Moody's Average Recovery Rate (1987–2022)⁴

Reflects general market terms as of the date hereof; actual terms of any loan will vary.

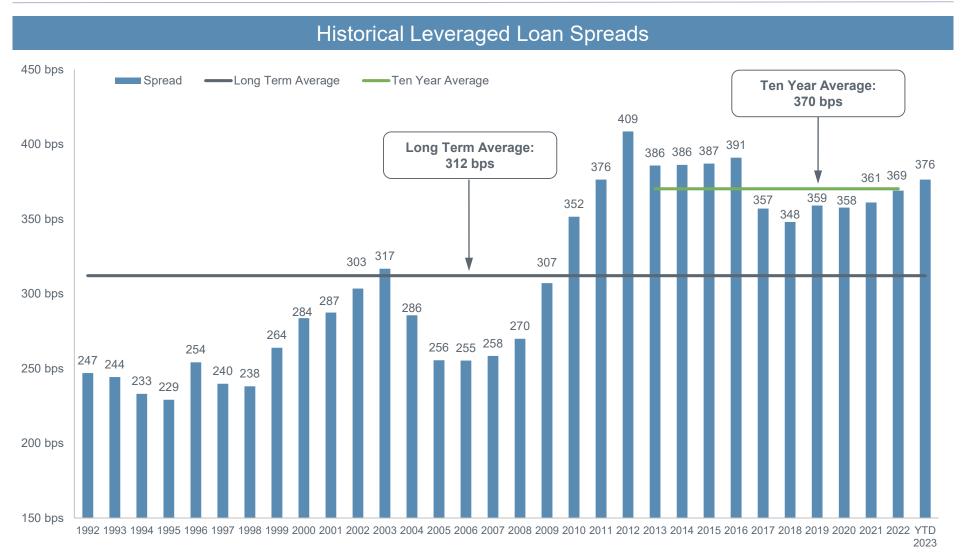

Past performance is not indicative of, or a guarantee of, future performance. Please see Important Information on page 1.

- 1. The Adviser expects CLO equity to provide some measure of protection against rising interest rates when the applicable benchmark rate is greater than the benchmark rate floor on a CLO's underlying assets (which can typically range from 0.00% to 1.00% depending on the loan). However, CLO equity is also subject to other forms of interest rate risk, including increased risk of default by CLO's underlying obligors.
- 2. Loan-to-value ratio is typically based on market values as determined in an acquisition, by the public in the case of publicly traded companies, or by private market multiples and other valuation methodologies in the case of private companies.
- 3. The illustrative borrowers shown may not reflect a meaningful part of the portfolios of our CLO investments and have been selected to provide context regarding the general types of borrowers of U.S. senior secured loans.

 Most of such borrowers are not as recognizable to the public as those shown.
- 4. Source: Moody's Investor Services Default Trends Global (January 2023). Senior Loans include first lien, second lien and unsecured term loans. No representation is being made as to the applicability of historical relative recovery rates to future periods. The information shown herein is for background purposes only and is the most recent data available.

The Spread in Loan Market Remains at High End of Historical Range

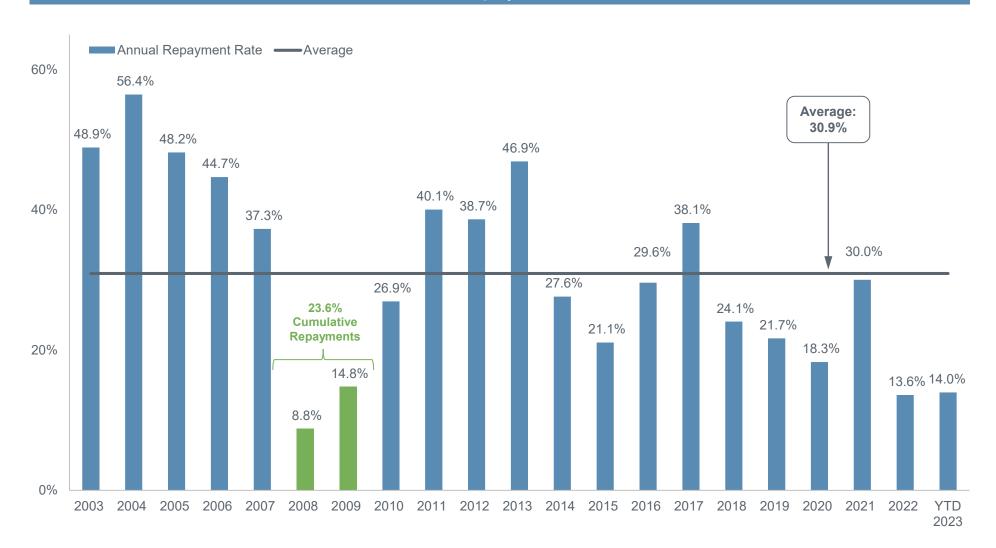

Loan Market Repayment Rate

Loan repayments provide capital for reinvestment within CLOs

Annual Repayment Rate

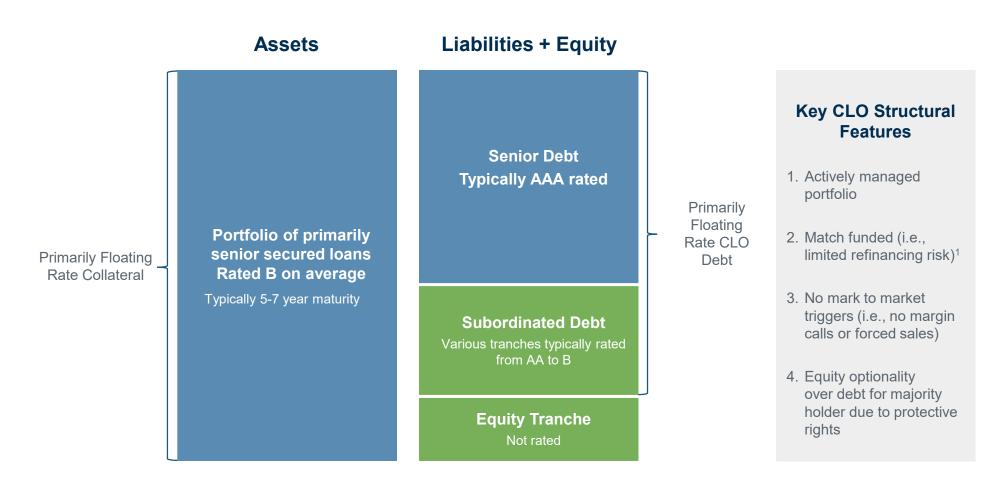

Source: Pitchbook LCD. Data as of June 30, 2023.

CLOs are Securitizations of a Portfolio of Senior Secured Loans

The Company invests primarily in the equity and subordinated debt tranches

The CLO structure highlighted on this page is a hypothetical structure, and the structure of CLOs in which the Company invests may vary from the example.

^{1.} Since a CLO's indenture typically requires that the maturity dates of a CLO's assets (typically 5 to 7 years from the date of issuance of a senior secured loan) be shorter than the maturity date of the CLO's liabilities (typically 12 to 13 years), CLOs generally do not face refinancing risk on the CLO debt. However, CLO investors do face reinvestment risk with respect to a CLO's underlying portfolio. In addition, in most CLO transactions, CLO debt investors are subject to prepayment risk in that the holders of a majority of the equity tranche can direct a call or refinancing of a CLO, which would cause the CLO's outstanding CLO debt securities to be repaid at par.

Common Shares Outstanding at end of period	62,831,478	58,226,929	55,045,981	48,025,043	43,682,137

^{1.} The information contained herein is unaudited. The information shown is derived from the Company's 2023 Semiannual Report, 2022 Annual Report, 2022 Semiannual Report, interim quarterly unaudited financial statements and/or other related financial information.

^{2.} Dollar amounts are per share of common stock and are based on a daily weighted average of shares of common stock outstanding for the period.

^{3.} Q4 2022 results include non-recurring excise taxes.

^{4.} Cash distributions include funds received from CLOs called (which includes a return of the Company's remaining invested capital in the applicable CLOs).

^{5.} See note 3 and 5 on page 23.

^{6.} Includes operational and administrative expenses, interest expenses, distributions on 6.75% Series D Preferred Stock, management and incentive fees, as well as non-recurring expenses mentioned in note 3 above.

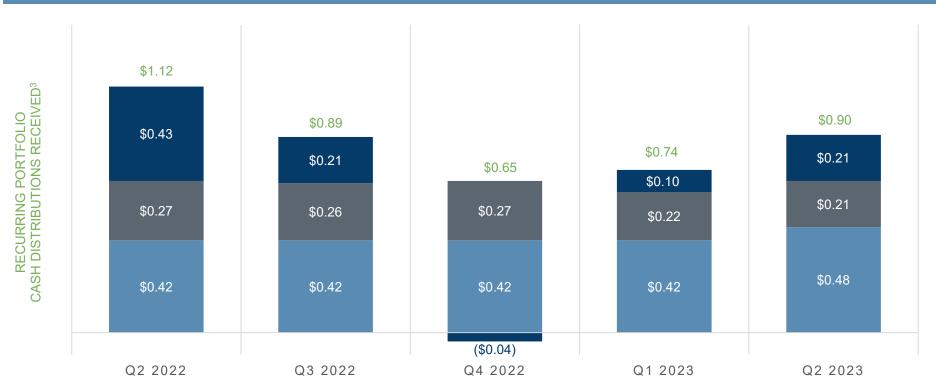

^{7.} Q4 2022 special distributions relate to the distribution of excess estimated taxable income over the aggregate distributions paid to common shareholders during the 2022 tax year.

ECC SUPPLEMENTAL INFORMATION¹

Distribution and Expense Coverage

ECC Portfolio Recurring Cash Flows²

- Cash Received in Excess of Common Share Distributions and Total Company Expenses
- ■Total Company Expenses ⁴
- Common Share Regular Distributions Paid ⁵
- 1. The information contained herein is unaudited. The information shown is derived from the Company's 2023 Semiannual Report, 2022 Annual Report, 2022 Semiannual Report, interim quarterly unaudited financial statements and/or other related financial information and is a graphical presentation for information previously provided on page 22.
- 2. Dollar amounts are per share of common stock and are based on a daily weighted average of shares of common stock outstanding for the period.
- 3. "Recurring Portfolio Cash Distributions Received" include quarterly distributions from CLO equity, CLO debt investments and other non-CLO assets and distributions from loan accumulation facilities in excess of capital invested and exclude funds received from CLOs called. Such distributions will vary from period to period and may be adversely affected by developments in the market. No representation is being made that such distributions will continue in the future at the same levels or at all, and nothing herein constitutes a guarantee of future distributions.
- See note 6 on page 22.
- To date, a portion of common stock distributions has been estimated to be a return of capital as noted under the Tax Information section on the Company's website. The actual components of the Company's distributions for U.S. tax reporting purposes can only be finally determined as of the end of each fiscal year of the Company and are thereafter reported on Form 1099-DIV. A distribution comprised in whole or in part by a return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income". Future distributions may consist of a return of capital. Amounts do not reflect special distributions paid to shareholders. **Not a guarantee of future distributions or yield.**

^{1.} The portfolio level data contained herein is derived from the Company's 2023 Semiannual Report, interim quarterly unaudited financial statements and/or other related financial information, CLO trustee reports, custody statements and/or other information received from CLO collateral managers. Excludes CLO debt and loan accumulation facilities. Dollar amounts in thousands.

^{2.} As of June 30, 2023, the CLO either had not reached its first payment date or, in the case of secondary purchases, had not made a payment since the Company owned the security.

^{3.} Weighted average calculations exclude called CLOs and newly issued CLOs for which lookthrough data is not yet available.

Weighted Average Loan Maturity	4.5 years	4.6 years	4.6 years	4.7 years	4.8 years			
Weighted Average Remaining CLO Reinvestment Period	2.7 years	2.9 years	3.0 years	3.2 years	3.3 years			

^{1.} The summary of portfolio investments and cash shown is based on the estimated fair value of the underlying positions and cash net of pending trade settlements as of June 30, 2023.

^{2.} The information presented herein is on a look-through basis to the collateralized loan obligation, or "CLO", equity held by the Company as of the period ends noted above (except as otherwise noted) and reflects the aggregate underlying exposure of the Company based on the portfolios of those investments. The data is estimated and unaudited and is derived from CLO trustee reports received by the Company relating to the period ends noted above and from custody statements and/or other information received from CLO collateral managers and other third party sources. Information relating to the market price of underlying collateral is as of month end; however, with respect to other information shown, depending on when such information was received, the data may reflect a lag in the information reported. As such, while this information was obtained from third party data sources, period end trustee reports and similar reports, other than market price, it does not reflect actual underlying portfolio characteristics as of the period ends noted above and this data may not be representative of current or future holdings. The weighted average remaining reinvestment period information is based on the fair value of CLO equity investments held by the Company at the end of the reporting periods.

We obtain exposure in underlying senior secured loans indirectly through CLOs.

Credit ratings shown are based on those assigned by Standard & Poor's Rating Group, or "S&P," or, for comparison and informational purposes, if S&P does not assign a rating to a particular obligor, the weighted average rating shown reflects the S&P equivalent rating of a rating agency that rated the obligor provided that such other rating is available with respect to a CLO equity or related investment held by us. In the event multiple ratings are available, the lowest S&P rating, or if there is no S&P rating, the lowest equivalent rating, is used. The ratings of specific borrowings by an obligor may differ from the rating assigned to the obligor and may differ among rating agencies. For certain obligors, no rating is available in the reports received by the Company. Such obligors are not shown in the graphs and, accordingly, the sum of the percentages in the graphs may not equal 100%. Ratings below BBB- are below investment grade. Further information regarding S&P's rating methodology and definitions may be found on its website (www.standardandoors.com). This data includes underlying portfolio characteristics of the Company's CLO equity.

Obligor and Industry Exposures

As of June 30, 2023, ECC has exposure to 1,784 unique underlying borrowers across a range of industries

Obligor and Industry Exposure

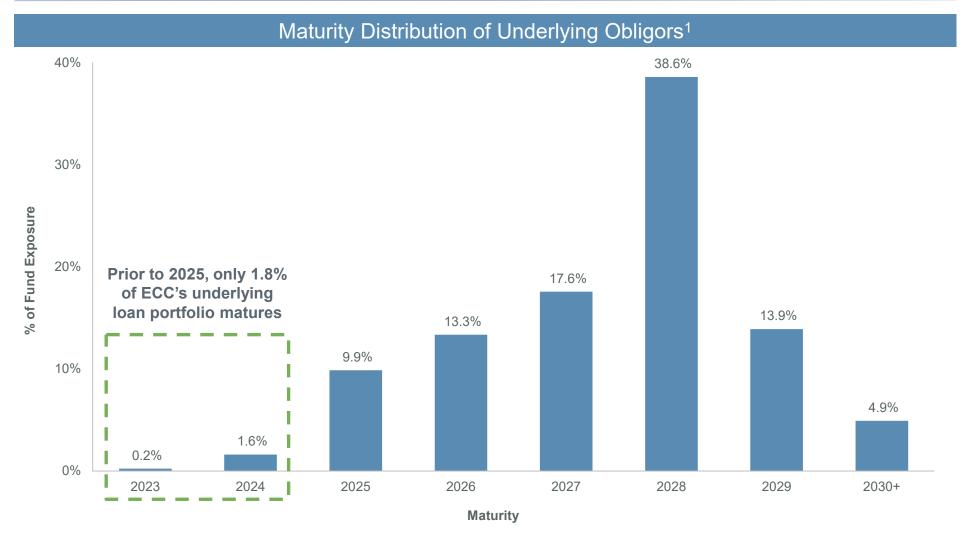

Top 10 Underlying Obligors ¹	% Total	Top 10 Industries of Underlying Obligors ¹	% Total
Asurion	0.8%	Technology: Software & Services	11.5%

1Q14 2Q14 3Q14 4Q14

Data based on the average annual revenue and EBITDA change (YoY) for public issuers within the Morningstar LSTA US Leveraged Loan Index. As of March 31, 2023, this included approximately \$187.8 billion of outstanding loans.

Liquidity Considerations

- Secondary trading is conducted through BWICs ("Bids Wanted in Competition") and privately negotiated sales
- CLO debt and equity tranches typically settle electronically via DTC and trade on a T+2 basis

There was over \$140 billion of CLO trading volume annually on average over the last 5 years
